## INDEX

- Abstract formalism, dialectics compared,  
240–242
- Abstract thinking, 170–171, 191–193
- Abstract to concrete, ascending from, xxxiii,  
195, 202, 247–248
- Action response, 116–117
- Activity theory, xiv  
artifacts in, xiv  
Cole and, xiv, xv  
conceptual tools, xv  
contradiction and, xv  
critiques of, xxvii  
cultural artifacts in, xiv  
cultural-historical methodology, xiv,  
249–251, 252–253  
Davydov and, xiv  
developmental work research and, xvi  
division of labor and, xiv  
expansion and, 7  
first generation of, xiv  
horizontal aspects of, xxiv  
individual versus collective activity, xiv  
influence of on expansive learning  
theory, xiv  
Marxism and, xxiv  
mediation, xiv  
object of learning activity in, xiv  
Scribner and, xiv  
second generation of, xiv  
subject of learning activity in, xiv  
third generation of, xv  
tools in, xv  
vertical aspects of, xxiv
- Actual-empirical analysis, 255
- Actual-empirical data, 9
- Adorno, Theodor, 17
- Advanced thought versus primitive thought,  
169–172
- The Adventures of Huckleberry Finn* (Twain)  
contradiction and, 140  
double bind and, 140, 149  
heuristic rules in, 229  
microcosms and, 232  
models and, 226–227  
overview, 14  
periodic law of elements compared, 208  
science and, 223  
*Seven Brothers* compared, 166  
springboards and, 225  
theoretical lessons from, 146–153  
zones of proximal development in,  
139–146, 152
- Alienation, 84–86
- Altshuller, G.S., 12, 256–258
- Analysis of activity system, 254–256  
actual-empirical analysis, 255  
double bind and, 256  
object-historical analysis, 254–255  
object-unit and, 255–256  
outcome and, 255–256  
theory-historical analysis, 255
- Analysis of the Developing Concept* (Arsen'ev,  
Bibler and Kedrov), 191
- Analysis versus experience, 172–176
- Animal activity, 59–62
- Apes  
evolution of activity, 60–62  
tools and, 60
- Apprenticeship, 243, 245–246
- Argyris, C., 112

- Arlin, Patricia, 234  
 Arsenèv, A.S., 191, 193–194  
 Art  
   Bartlett on, 184  
   as commodity, 98  
   cultural evolution of learning in, 75, 95–98  
   object of learning activity in, 98  
   Vygotsky on, 97  
   Wartofsky on, 96–97, 98  
 Artifacts  
   in activity theory, xiv  
   primary artifacts, 49–50, 115  
   secondary artifacts, 49–50, 115–117, 121, 255  
   tertiary artifacts, 121  
 Ascending from abstract to concrete, xxxiii,  
   195, 202, 247–248  
 Atlas, J.A., 170  
 Atomic bomb. *See* Manhattan Project  
  
 Bakhtin, Mikhail, xxiv, 12, 20, 245–247, 248  
 Bakhurst, David, xxvii  
 Baltes, P.B., 11–12  
 Bartlett, Frederic, 12, 18–19, 52–53, 116, 182–184  
 Basseches, Michael, 236, 237–238  
 Bateson, Gregory  
   on deutero-learning, 111  
   on double bind, 112–113, 119, 145, 166  
   expansive learning theory, influence  
     on, xviii  
   on hierarchy of learning, 111–114  
   on levels of learning, xxv, 111–113, 115,  
     119–120, 126, 127  
   making categories reach reality and, 21, 23  
   on models, 201  
   on play, 107  
   processing categories out of data and, 15–16,  
     18, 19  
   selection of data and, 10, 11, 12, 13  
   theoretical research and, 9  
 Behavioral routines, 114–115  
 Bereiter, Carl, 11–12, 18, 25–27, 82  
 Bernshtein, N.A., 131  
*Beyond Formal Operations* (Commons,  
 Richards and Armon), 233, 234  
 Bhopal disaster, 88–89  
 Bibler, V.S., 137, 191, 193–194  
 Bibliolaty, 79  
 BIM (Building Information Modeling), xxxvi  
 Blacksmithing, 179–180  
 Blunden, Andy, xxx  
 Bohm, David, 230–231  
  
 Bohr, Niels, 213–214, 215–216, 219.  
   *See also* Nuclear fission  
 Bratus, B.S., 132–134, 139  
 Braverman, H., 13, 84–85  
 Brehmer, B., 11–12, 173–176, 177  
 Broadbent, D.E., 52–53
