Contents

Preface *page* ix
Acknowledgements xi

1 Introduction 1
1.1 Basic Concepts 3
1.2 Elements of a Reserving Exercise 8
1.3 Software 12
1.4 Mathematical Notation 13
1.5 A Note on Terminology 14

2 Data 16
2.1 Introduction 16
2.2 The Claims Development Concept 17
2.3 The Data Triangle Concept 18
2.4 Data Types 19
2.5 Further Details Related to the Data Triangle Format 21
2.6 Grouping and Subdivision of Data 36
2.7 Data Quality Issues 36

3 Deterministic Reserving Methods 40
3.1 Introduction 40
3.2 The Chain Ladder Method 41
3.3 The Initial Expected Loss Ratio Method 78
3.4 The Bornhuetter–Ferguson Method 79
3.5 Frequency–Severity Methods 91
3.6 The Cape Cod Method 124
3.7 The Separation Method 133
3.8 Other Deterministic Methods 141

4 Stochastic Reserving Methods 146
4.1 Introduction 146
4.2 Mack's Method 158

Table of Contents
More Information

4.3 The Over-dispersed Poisson ("ODP") Model 185
4.4 The Bootstrap Method 202
4.5 Bayesian Methods 244
4.6 Merz–Wüthrich Method 251
4.7 Other Stochastic Methods 265
4.8 Methods Using a One-year or Multi-period Time Horizon 286
4.9 Combining Results Across Categories 293
4.10 Stochastic Reserving in Practice 307

5 Reserving in Practice 320
5.1 Introduction 320
5.2 Background 321
5.3 Data 325
5.4 Analysis 326
5.5 Method Selection 327
5.6 Applying the Methods 328
5.7 Selection and Analysis of Results 332
5.8 Using Graphs to Review and Select Results 335
5.9 Estimating and Communicating Uncertainty 338
5.10 Documentation and Reporting 344

6 Selected Additional Reserving Topics 346
6.1 Introduction 346
6.2 Outwards Reinsurance 346
6.3 Roll-forward, Actual vs Expected and Fast Close Procedures 350
6.4 Unallocated Loss Adjustment Expenses 358
6.5 Reinsurance Bad Debt 366
6.6 Latent Claims 372
6.7 Discounting 379
6.8 Reserving Under Solvency II 386
6.9 Miscellaneous Topics 397

7 Reserving in Specific Contexts 410
7.1 Introduction 410
7.2 UK Personal Motor 411
7.3 London Market – Casualty Classes 418
7.4 London Market – Property Classes 428
7.5 US Workers' Compensation 437
7.6 Asia Motor 442
7.7 UK Asbestos 446

***Appendix A* Mathematical Details for Mean Squared Error of Prediction** 465
A.1 Derivation of MSEP Formula Based on General Statistical Reasoning 465
A.2 Derivation of MSEP Formula Based on Taylor (2000) 466

Table of Contents
More Information

A.3 Derivation of MSEP Formula Based on Renshaw (1994b) 467
A.4 Derivation of MSEP Formula Based on Use of Conditional Probabilities 468

Appendix B **R Code Used for Examples** 471
B.1 How to Load a Data Triangle into R 471
B.2 R Code for Deterministic Methods 471
B.3 R Code for Stochastic Methods 473
