## Section 1: Introduction to and brief history of FTD

1. **Historical introduction to FTD** 1  
John R. Hodges
2. **Overview of frontotemporal dementia and its relationship to other neurodegenerative disorders** 15  
Paul McMonagle and Andrew Kertesz

## Section 2: Clinical phenotypes

3. **Overview of frontotemporal dementia and the variety of its clinical presentations** 30  
Matthew Jones and David Neary
4. **Behavioral variant frontotemporal dementia** 44  
Katya Rascofsky
5. **Primary progressive aphasia** 55  
Chiara Cerami and Stefano F. Cappa
6. **The FTD-ALS spectrum** 68  
Thomas H. Bak and Sharon Abrahams
7. **Progressive supranuclear palsy and corticobasal degeneration in the FTD spectrum** 82  
Barbara Borroni and Antonella Alberici

---

## Section 3: Approach to the diagnosis of FTD

8. **Overview of clinical assessment of frontotemporal dementia syndromes** 91  
Bradford C. Dickerson, Simon Ducharme, and Chiadi U. Onyike
9. **Neuropsychological assessment of frontotemporal dementia** 106  
Teresa Torralva, Macarena Martinez Cuitiño, and Facundo Manes
10. **Imaging of frontotemporal dementia** 125  
Jonathan D. Rohrer
11. **Cerebrospinal fluid biomarkers of frontotemporal lobar degeneration** 143  
Nicolaas A. Verwey, Yolande A. L. Pijnenburg, and Philip Scheltens
12. **Genetic counseling for FTD** 153  
Jill S. Goldman and Elisabeth McCarty Wood

## Section 4: Pathology and pathophysiology

13. **Neuropathology of frontotemporal dementia and related disorders** 165  
Manuela Neumann, Gabor G. Kovacs, and Ian R. A. Mackenzie
