- API, *see* application programming interface
- application programming interface, 22
  - pull/polling, 22
  - push, 22, 90
- biases, 128, 129
- bot, 28
- categorization, *see* classification
- centrality, 71, 77
  - betweenness, 71
  - eigenvector, 71
- character decoding, 37
- citizen sensing, 6
- classification, 51, 93
  - supervised classification, 57, 87
  - unsupervised classification, *see* clustering
- clustering, 63, 91, 120
  - graph-based, 76
  - online, 87
  - spatial, 88, 93
- complex event processing, 81
- connected component, 70
- contextual stream, 27, 33
- conversations, 36
- credibility, 118
- crowdsourcing, 97
- de-duplication, 29
- decision support systems, 150
- degree, 70
- demographic density bias, 132, 141
- dependency parsing, 40, 92
- digital divide, 126
- digital volunteering, 97
- disinformation, 114, 128
- distal exposure, 158
- earthquakes, 134
- emergency simulation exercises, 106, 158
- emoticon, 30
- emotions, 41, 54, 76, 158, 159, *see also* sentiment analysis
- endogenous events, 83, 92
- evaluation
  - classification, 61
  - event detection, 88
- event detection, 83, 134, 143
- exogenous events, 83, 92
- Facebook, 6, 31
- faceted search, 43
- false discovery rate, 89
- feature extraction, 29
- feature selection, 59
- geocoding, 44, 130
- geotagging, 44
- GIS, *see* geographical information system
- global positioning system, 44
- graphs, 69, 144
- hashtags, 25, 28, 48, 49, 73, 84
- heat map, *see* maps: isarithmic
- hoaxes, 110
- human computation, 97
- incremental data analysis, 80
- information expiration, 113, 128
- information extraction, 46, 85, 118
- information quality, 165

informed consent, 154  
 institutional review board, 158  
 interdisciplinary research, 169  
 interoperability, 47, 135, 160  
 IRB, *see* institutional review board

Kalman filter, 46

Latent Dirichlet Allocation, 64, 120  
 LDA, *see* Latent Dirichlet Allocation  
 lemmatization, 39  
 live data analysis, 80  
 locality sensitive hashing, 66, 88  
 LSH, *see* locality sensitive hashing

machine translation, 49  
 maps, 105, 138
 

- choropleth, 140
- dasymmetric, 141
- dot distribution, 140
- isarithmic, 133, 141
- proportional symbol, 140

 mesh networking, 130  
 microtext, 14, 19  
 misinformation, 114  
 multidocument text summarization, 85  
 multimedia, 19, 31, 143, 168  
 multimedia retrieval, 168

n-gram, 30  
 named entity
 

- named entity linking, 42
- named entity recognition, 42, 45
- named entity tagging, 85

 named entity tagging, *see* named entity recognition, 92  
 natural language processing, 30, 35, 37, 119  
 NER, *see* named entity recognition  
 NLP, *see* natural language processing  
 normalization, 38  
 NoSQL, 31

online algorithms, 81, 90  
 ontologies, 47  
 open data, 160  
 opinion mining, 41

pagerank, *see* centrality: eigenvector  
 part-of-speech tagging, 40, 92

political implications, 101, 157  
 POS tagging, *see* part-of-speech tagging  
 privacy, 153

quantitative information, 47, 91, 129

reasoning (automatic), 47, 118  
 retrospective data analysis, 80

scale-free network, 70  
 sensitivity, 89  
 sentiment analysis, 41  
 situational awareness, 1, 6, 60, 91  
 social networks, 68, 69  
 spam, 28, 121  
 Standby Task Force, 100, 104, 106, 154  
 stemming, 39  
 stopword, 39  
 streams, 81, 90  
 subevents, 84

tag cloud, 144  
 TDT, *see* topic detection and tracking  
 temporal information retrieval, 83  
 temporal references, 43  
 text summarization, *see* multidocument text summarization  
 time series, 81, 82, 143  
 timeline, 90, 143  
 tokenization, 37  
 topic detection and tracking, 83  
 trust, 113
 

- content-based, 113
- policy based, 113
- policy-based, 28
- reputation-based, 113

UAV, *see* unmanned aerial vehicles  
 unmanned aerial vehicles, 168  
 user-generated content, 5

vector space model, 29  
 virtual operation support teams, 109, 166  
 visible skepticism, 117  
 volunteer and technical communities, 101  
 volunteering, 96  
 VTC, *see* volunteer and technical communities

word-of-mouth, 73
