

**The End of Iberian Rule on the American Continent,
1770–1830**

In this new work, Brian R. Hamnett offers a comprehensive assessment of the independence era in both Spanish America and Brazil by examining the interplay between events in Iberia and in the overseas empires of Spain and Portugal. Most colonists had wanted some form of unity within the Spanish and Portuguese monarchies but European intransigence continually frustrated this aim. Hamnett argues that independence finally came as a result of widespread internal conflict in the two American empires, rather than as a result of a clear separatist ideology or a growing national sentiment. With the collapse of empire, each component territory faced a struggle to survive. *The End of Iberian Rule on the American Continent, 1770–1830* is the first book of its kind to give equal consideration to the Spanish and Portuguese dimensions of South America, examining these territories in terms of their divergent component elements.

Brian R. Hamnett is Emeritus Professor, Department of History, University of Essex.

Acknowledgments

This book has been a long time in gestation. It owes many intellectual debts to archivists and librarians and their staff in a range of countries. Arguments were tested in conferences, seminars, and presentations. I should like to single out in this respect the Colegio de México in 2008–10 and the Pontífica Universidad Católica del Perú (with the Instituto Francés de Estudios Andinos) in 2011 and 2014. The British Academy and the Nuffield Foundation supported research in Mexico and Brazil. The Universities of Strathclyde and Essex, respectively, enabled work in Quito and Bogotá, and Brazil and Chile.

Conversations with Mexican colleagues, Josefina Vázquez and Andrés Lira, Juan Ortiz Escamilla, José Antonio Serrano Ortega, Guillermina del Valle, and Brian Connaughton, Manuel Chust, Christon Archer, Jaime Rodríguez, and Gabriel Paquette greatly facilitated refinement of the argument. Similarly, this work has been enriched by on-going contact with Peruvian scholars, Scarlett O’Phelan and Luis Miguel Glave. Daniel Gutiérrez Ardila (Universidad Externado, Bogotá), Juan Luis Ossa (Universidad Adolfo Ibáñez, Santiago de Chile), and Natalia Sobrevilla (University of Kent) commented on sections of the manuscript. I am grateful to Carmen Forsyth for excellent instruction in Brazilian Portuguese at the University of Essex.
