<i>Preface</i>	<i>page</i> ix
<i>Acknowledgments</i>	xi
<b>1 Preliminaries: Shortest Path Algorithms</b>	<b>1</b>
1.1 Nonnegative Costs: Dijkstra’s Algorithm	2
1.2 Negative Costs: The Bellman–Ford Algorithm	6
1.3 Negative-Cost Cycle Detection	11
Exercises	19
Chapter Notes	20
<b>2 Maximum Flow Algorithms</b>	<b>23</b>
2.1 Optimality Conditions	26
2.2 Application: Carpool Sharing	33
2.3 Application: The Baseball Elimination Problem	36
2.4 Application: Finding a Maximum Density Subgraph	41
2.5 Most Improving Augmenting Paths	46
2.6 A Capacity Scaling Algorithm	51
2.7 Shortest Augmenting Paths	53
2.8 The Push-Relabel Algorithm	56
Exercises	69
Chapter Notes	76
<b>3 Global Minimum Cut Algorithms</b>	<b>80</b>
3.1 The Hao–Orlin Algorithm	82
3.2 The MA Ordering Algorithm	89
3.3 The Random Contraction Algorithm	93
3.4 The Gomory–Hu Tree	100
Exercises	110
Chapter Notes	113

<b>4</b>	<b>More Maximum Flow Algorithms</b>	116
4.1	Blocking Flows	116
4.2	Blocking Flows in Unit Capacity Graphs	120
4.3	The Goldberg–Rao Algorithm	122
	Exercises	128
	Chapter Notes	130
	Permissions	130
<b>5</b>	<b>Minimum-Cost Circulation Algorithms</b>	132
5.1	Optimality Conditions	135
5.2	Wallacher’s Algorithm	140
5.3	Minimum-Mean Cycle Canceling	146
5.4	A Capacity Scaling Algorithm	154
5.5	Successive Approximation	160
5.6	Network Simplex	167
5.7	Application: Maximum Flow Over Time	170
	Exercises	176
	Chapter Notes	184
<b>6</b>	<b>Generalized Flow Algorithms</b>	188
6.1	Optimality Conditions	190
6.2	A Wallacher-Style GAP-Canceling Algorithm	198
6.3	Negative-Cost GAP Detection	205
6.4	Lossy Graphs, Truemper’s Algorithm, and Gain Scaling	209
6.5	Error Scaling	218
	Exercises	221
	Chapter Notes	223
<b>7</b>	<b>Multicommodity Flow Algorithms</b>	224
7.1	Optimality Conditions	225
7.2	The Two-Commodity Case	227
7.3	Intermezzo: The Multiplicative Weights Algorithm	230
7.4	The Garg–Könemann Algorithm	236
7.5	The Awerbuch–Leighton Algorithm	240
	Exercises	249
	Chapter Notes	251
<b>8</b>	<b>Electrical Flow Algorithms</b>	253
8.1	Optimality Conditions	254
8.2	Maximum Flow in Undirected Graphs	266

	Contents	vii
8.3	Graph Sparsification	271
8.4	A Simple Laplacian Solver	277
	Exercises	285
	Chapter Notes	288
	Permissions	290
<b>9</b>	<b>Open Questions</b>	291
	<i>References</i>	294
	<i>Author Index</i>	307
	<i>Index</i>	310
