

# Neuropsychological Conditions across the Lifespan

---

This unique analysis of neuropsychological conditions provides readers with a review of both pediatric and adult presentations in one convenient place. Covering the most common disorders encountered in clinical practice, including those specific to the extremes of the age spectrum, this book provides dedicated chapters on:

- Preterm and Low-Birth-Weight Birth
- Spina Bifida Myelomeningocele
- Autism Spectrum Disorder
- Intellectual Disability Syndromes
- Fetal Alcohol Spectrum Disorders
- Attention-Deficit/Hyperactivity Disorder
- Learning Disabilities
- Traumatic Brain Injury
- Cancer
- Epilepsy
- Human Immunodeficiency Virus
- Multiple Sclerosis
- Stroke
- Dementia

Each chapter provides evidence-based guidelines that can be readily applied to daily practice.

**Jacobus Donders** is Chief Psychologist at Mary Free Bed Rehabilitation Hospital in Grand Rapids, Michigan. He is board certified in clinical neuropsychology, pediatric clinical neuropsychology, and rehabilitation psychology.

**Scott J. Hunter** is Professor of Psychiatry and Behavioral Neuroscience, and Pediatrics at the University of Chicago and Director of Neuropsychology for the University of Chicago Medicine and Comer Children's Hospital, Chicago, Illinois.

.....

Every effort has been made in preparing this book to provide accurate and up-to-date information that is in accord with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors, and publishers can make no warranties that the information contained herein is totally free from error, not least because clinical standards are constantly changing through research and regulation. The authors, editors, and publishers therefore disclaim all liability for direct or consequential damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.
