Foreword xiii
Howard W. Jones Jr.

Preface xv

Section 1: Preliminaries

1 The risks associated with multiple pregnancies 3
Ulla-Britt Wennerholm

2 An overview of determinants of oocyte and embryo developmental competence: specificity, accuracy and applicability in clinical IVF 17
Jonathan Van Blerkom

Section 2: Clinical aspects

3 Single embryo transfer: concepts and definitions 53
Jan Gerris and Petra De Sutter

4 Patient selection for single embryo transfer 67
Ofer Fainaru and Mark D. Hornstein

5 Perinatal outcome after single embryo transfer 75
Petra De Sutter and Jan Gerris
6 Single embryo transfer as a model for early conception and implantation 83
    Anja Pinborg and Anne Loft
7 Ovarian stimulation, blastocyst culture and preimplantation genetic screening for elective single embryo transfer 93
    Robert P. S. Jansen and Steven J. McArthur
8 Sequential embryo selection for single embryo transfer 109
    Lynette Scott
9A Cryo-augmentation after single embryo transfer: the European experience 121
    Aila Tiitinen
9B Cryo-augmentation after single embryo transfer: the American experience 127
    Marius Meintjes
10A Single embryo transfer in recipients of donated oocytes 135
    Viveca Söderström-Anttila
10B The impact of single embryo transfer on embryo donation 139
    Jeffrey A. Keenan and Reginald Finger
10C SET in unique clinical situations: single women, lesbians 143
    Karen J. Purcell
10D Preimplantation genetic diagnosis and single embryo transfer 147
    Willem Verpoest
11 Counseling patients for single embryo transfer 151
    Sharon N. Covington
12 Stress-reduction techniques to reduce patient dropout rates during elective single embryo transfer 159
    Janetti Marotta
13 Barriers for elective single embryo transfer implementation 171
    Arno M. van Peperstraten, Jan A. M. Kremer and Didi D. M. Braat
14 Single embryo transfer: the Swedish experience 183
    Christina Bergh, Per-Olof Karlström and Ann Thurin-Kjellberg
15 Single embryo transfer: the Dutch experience 191
    Aalke P. A. van Montfoort
16 Philosophical and ethical considerations on single embryo transfer 199
    Guido Pennings

Section 3: Controversies

17 What is the optimum day of transfer for single embryo transfer? Success rates, monozygotic twinning and epigenetic issues 213
    Christine C. Skiadas and Catherine Racowsky
18 Cost-effectiveness of single embryo transfer in assisted reproductive technology cycles 223
    John Collins
19 Defining success in assisted reproduction 231
    Siladitya Bhattacharya
20 Should sperm parameters be considered in patient selection for single embryo transfer? 241
    Denny Sakkas, Hasan M. El-Fakahany and Emre U. Seli
21 Does self-regulation work for implementation of single embryo transfer? 249
    G. David Adamson
Contents

22  An American perspective on single embryo transfer 269
John M. Norian, Eric D. Levens, Alan H. DeCherney and G. David Adamson

23  A European perspective on single embryo transfer 283
André Van Steirteghem

Index 289

Color plate section is between pages 150 and 151.
