Cambridge University Press has no responsibility for the  
persistence or accuracy of URLs for external or third-party internet  
websites referred to in this publication, and does not guarantee that  
any content on such websites is, or will remain, accurate or  
appropriate.

Every effort has been made in preparing this book to provide accurate and  
up-to-date information which is in accord with accepted standards and  
practice at the time of publication. Although case histories are drawn  
from actual cases, every effort has been made to disguise the identities of  
the individuals involved. Nevertheless, the authors, editors and publishers  
can make no warranties that the information contained herein is totally  
free from error, not least because clinical standards are constantly  
changing through research and regulation. The authors, editors and  
publishers therefore disclaim all liability for direct or consequential  
damages resulting from the use of material contained in this book. Readers  
are strongly advised to pay careful attention to information provided by  
the manufacturer of any drugs or equipment that they plan to use.
