List of contributors vii
Preface ix

1 Initial assessment of the undiagnosed patient who has an erythrocytosis, leukocytosis, or thrombocytosis 1
Mary Frances McMullin

2 Practical approaches to molecular testing and diagnosis of mastocytosis, hypereosinophilia, and MDS/MPN overlap syndromes 9
Nicholas C.P. Cross, Dimitra Koumaki, Georgia Metzgeroth, and Andreas Reiter

3 Incidental splenomegaly: an approach to diagnosis 17
Craig B. Reeder

4 When to do a bone marrow biopsy and how to interpret it in the diagnosis of myeloproliferative neoplasm 22
Hans Michael Kvasnicka

5 Accurately assessing risk in your myeloproliferative neoplasm patient 37
Francisco Cervantes and Arturo Pereira

6 Incorporating symptomatic assessment in therapy choice for patients with myeloproliferative neoplasms 45
Robyn M. Scherber, Holly L. Geyer, and Ruben A. Mesa

7 The newly diagnosed patient with essential thrombocythemia 56
Guido Finazzi

8 The newly diagnosed patient with polycythemia vera 64
Alessandro M. Vannucchi and Paola Guglielmelli

9 Longstanding polycythemia vera and essential thrombocythemia: monitoring and management goals 70
Loula Papageorgiou and Claire N. Harrison

10 Which patients are candidates for JAK inhibitors and how to manage patients on JAK inhibitor treatment 79
Lorenzo Falchi and Srdan Verstovsek

11 Hematopoietic cell transplantation for myelofibrosis: who and when? 86
Veena Fauble and Vikas Gupta

12 Systemic mast cell disease: diagnosis and management 97
Deepti Radia

13 Hypereosinophilia: an illustrated approach to diagnosis and management 108
Jason Gotlib

14 Myelodysplastic/myeloproliferative neoplasm overlap syndromes 120
Aaron T. Gerds, Ramon V. Tiu, and Mikkael A. Sekeres

15 Atypical chronic myeloid leukemia and chronic neutrophilic leukemia 129
Daniel A. Pollyea and Jeffrey T. Schowinsky

16 Women and children with myeloproliferative neoplasms – special considerations 137
Robert Schneidewind and Laura C. Michaelis

17 Conception and pregnancy in myeloproliferative neoplasms 152
Susan Robinson

18 Managing acute vascular events in patients with myeloproliferative neoplasms 160
David A. Garcia and Bethany T. Samuelson

19 Challenging thrombotic scenarios in the myeloproliferative neoplasms: splanchic vein thrombosis and others 172
Brady L. Stein
Contents

20 Familial myeloproliferative neoplasms – implications for patients and their families 178
   Sabina Swierczek and Josef Prchal

21 Management of acute leukemia following myeloproliferative neoplasms 184
   Raoul Tibes
