## CONTENTS.

	PAGE
INTRODUCTION . . . . .	1
DEFINITION. CLINICAL METHODS OF INVESTIGATION OF	
THE BLOOD . . . . .	1
The quantity of the blood . . . . .	2
Number of red corpuscles . . . . .	4
Size of red corpuscles . . . . .	12
Amount of hæmoglobin in the blood . . . . .	13
Specific gravity of the blood . . . . .	17
Hygrometry . . . . .	21
Total volume of the red corpuscles . . . . .	21
Alkalinity of the blood . . . . .	23
Coagulability of the blood . . . . .	24
Separation of the serum . . . . .	24
Resistance of the red corpuscles . . . . .	25
THE MORPHOLOGY OF THE BLOOD . . . . .	27
A. METHODS OF INVESTIGATION . . . . .	29
a. Preparation of the dry specimen . . . . .	32
β. Fixation of the dry specimen . . . . .	34
γ. Staining of the dry specimen . . . . .	36
Theory of staining . . . . .	37
Combined staining . . . . .	38
Triacid fluid . . . . .	40
Other staining fluids . . . . .	41

## CONTENTS.

	PAGE
Recognition of glycogen in the blood . . . . .	45
Microscopic determination of the distribution of the alkali of the blood . . . . .	46
<b>B. NORMAL AND PATHOLOGICAL HISTOLOGY OF THE BLOOD . . . . .</b>	<b>48</b>
The red blood corpuscles . . . . .	48
Diminution of hæmoglobin equivalent . . . . .	49
Anæmic or polychromatophil degeneration . . . . .	49
Poikilocytosis . . . . .	52
Nucleated red blood corpuscles . . . . .	54
Normoblasts and megaloblasts . . . . .	56
The fate of the nuclei of the erythroblasts . . . . .	57
The clinical differences in the erythroblasts . . . . .	61
 <b>THE WHITE BLOOD CORPUSCLES . . . . .</b>	 <b>67</b>
<b>I. NORMAL HISTOLOGY AND CLASSIFICATION OF THE WHITE BLOOD CORPUSCLES . . . . .</b>	<b>71</b>
The lymphocytes . . . . .	71
The large mononuclear leucocytes . . . . .	73
The transitional forms . . . . .	74
The polynuclear leucocytes . . . . .	75
The eosinophil cells . . . . .	76
The mast cells . . . . .	76
Pathological forms of white blood corpuscles . . . . .	77
The neutrophil myelocytes . . . . .	77
The eosinophil myelocytes . . . . .	78
The neutrophil pseudolymphocytes . . . . .	78
Stimulation forms . . . . .	79
 <b>II. ON THE PLACES OF ORIGIN OF THE WHITE BLOOD CORPUSCLES . . . . .</b>	 <b>81</b>
<i>a.</i> The spleen . . . . .	84
<i>β.</i> The lymphatic glands . . . . .	100
<i>γ.</i> The bone-marrow . . . . .	105

	PAGE
III. ON THE DEMONSTRATION OF THE CELL-GRANULES, AND THEIR SIGNIFICANCE . . . . .	121
History of the investigation of the granules . . . . .	121
Since Ehrlich . . . . .	123
Methods of demonstration . . . . .	124
Vital staining of granules . . . . .	124
The Bioblast theory (Altmann) . . . . .	128
The granules as metabolic products of the cells (Ehrlich)	130
Secretory processes in granulated cells . . . . .	134
IV. LEUCOCYTOSIS . . . . .	138
Biological importance of leucocytosis . . . . .	138
Morphology of leucocytosis . . . . .	142
a. 1. Polynuclear neutrophil leucocytosis . . . . .	143
Definition . . . . .	143
Clinical occurrence . . . . .	144
Origin . . . . .	144
a. 2. Polynuclear eosinophil leucocytosis, including the mast cells . . . . .	148
Definition . . . . .	149
Clinical occurrence . . . . .	150
Origin . . . . .	154
β. Leukæmia ("mixed leucocytosis"). . . . .	167
Lymphatic leukæmia . . . . .	170
Myelogenous leukæmia . . . . .	171
Morphological character . . . . .	187
Origin . . . . .	187
V. LEUKOPENIA . . . . .	188
The blood platelets. The hæmoconia . . . . .	190
INDEX TO LITERATURE . . . . .	195
INDEX . . . . .	209
PLATES
