# Table of Contents

**Preface**  
*page vii*

**Chapter I. Investigation**  
Clinical examination; Radiological examination; Bacteriological examination; Biochemical examination; Tests of renal efficiency in urological surgery; Summary  
*page 1*

**Chapter II. Investigation continued**  
Methods of anaesthesia; Cystoscopy; Renal efficiency dye tests; Catheterization of ureters; Retrograde pyelography; Urethroscopy; Cystoscopy and urethroscopy in the consulting room  
*page 20*

**Chapter III. The Diagnostic Significance of Certain Common Symptoms and their Investigation**  
Pain; Frequency; Retention; Residual urine; Incontinence; Haematuria; Pyuria and Bacilluria; Pneumaturia; Hypogastric tumour  
*page 47*

**Chapter IV. The Kidney**  
Anatomy; Urine; Anuria; Uraemia; Congenital malformations; Movable kidney; Hydronephrosis; Rupture of the kidney; Infections of the kidney; Tuberculosis of the kidney; Nephritis and albuminuria; Calculus; Growths of the kidney; Cysts of the kidney; Essential renal haemorrhage  
*page 64*

**Chapter V. Operations on the Kidneys**  
Exposure; Nephrostomy; Nephropexy; Nephrectomy; Plastic operations on renal pelvis and ureter; Nephrolithotomy and Pyelolithotomy  
*page 96*

**Chapter VI. The Ureter**  
Anatomy; Ureteroceles; Injuries; Adhesions; Calculus; Operations  
*page 102*

**Chapter VII. The Bladder**  
Anatomy and Physiology; Pathology; Malformations; Rupture; Foreign bodies and calculus; Cystitis; Tuberculous cystitis; Fistula; Growths of bladder; Nervous disorders  
*page 114*
CONTENTS

Chapter VIII. Operations on the Bladder  page 188
  Suprapubic operations; Perurethral operations

Chapter IX. Genito-urinary Tuberculosis  148
  Renal tuberculosis; Tuberculosis of prostate, vesiculae seminales, testis and vas deferens and of the female generative organs

Chapter X. The Urethra  156
  Anatomy; Deformities; Rupture of the urethra; Extravasation of urine; Foreign bodies and calculus; Stricture of the urethra; Urethritis

Chapter XI. The Prostate  174
  Anatomy; Prostatitis; Calculus; Tuberculosis of the prostate; Chronic enlargement of the prostate; New growths of the prostate; Neuroses

Chapter XII. Operations on the Prostate  204
  Suprapubic prostatectomy: Methods of Freyer, Thompson Walker, and Harris; Perurethral operations on the prostate

Chapter XIII. The Nursing and General Management of the Urological Patient  213
  General considerations; Operations on the kidney; Operations on the ureter; Operations on the bladder and prostate

Chapter XIV. Appendix  219
