Cambridge University Press has no responsibility for the persistence or
accuracy of URLs for external or third-party internet websites referred to
in this publication, and does not guarantee that any content on such
websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate
and up-to-date information which is in accord with accepted standards
and practice at the time of publication. Although case histories are drawn
from actual cases, every effort has been made to disguise the identities of the
individuals involved. Nevertheless, the authors, editors and publishers can
make no warranties that the information contained herein is totally free from
error, not least because clinical standards are constantly changing through
research and regulation. The authors, editors and publishers therefore
disclaim all liability for direct or consequential damages resulting from the
use of material contained in this book. Readers are strongly advised to pay
careful attention to information provided by the manufacturer of any
drugs or equipment that they plan to use.
