CONTENTS

<i>Acknowledgments</i>	<i>page xi</i>
 <i>Chapter</i>	
I INTRODUCTION	I
1. A brief outline of procedure	I
2. The nature of the perceptual process	4
 II STAGES IN THE PERCEPTUAL PROCESS	 7
1. The conditions of investigation	7
2. The fundamental stages in the process of perceiving	8
3. Conditions which modify the occurrence or awareness of these stages	11
4. Secondary and non-essential phenomena sometimes occurring during perception	14
 III THE PROCESS OF PERCEIVING WORDS	 17
1. Auditory and vocal processes	17
2. Meaning and imagery	19
 IV THE STRUCTURE OF THE FIELD OF AWARENESS	 24
 V THE INFLUENCE OF ATTITUDINAL FACTORS UPON PERCEPTION	 28
1. General attitudes	28
2. Attention	32
3. 'Set' and 'Aufgabe'	39
4. Familiarity	49

Chapter

VI	THE INFLUENCE OF THE STRUCTURE OF THE OBJECTIVE FIELD	<i>page</i> 54
	1. The physical qualities of the stimulus	54
	2. The form quality of the stimulus	56
	3. The nature of the elements forming the total structure	62
VII	SPATIAL PERCEPTION	64
	1. The development of visual spatial percep- tion	64
	2. The nature of the phenomenal experiences involved	67
	3. The types of data employed in the per- ception of depth and distance	69
VIII	THE CONFIGURATIONAL ORGANIZATION OF THE FIELD	89
	1. The fundamental nature of configura- tional phenomena	89
	2. The organization of the field into 'figure' and 'ground'	91
	3. The emergence of the 'figure' from the 'ground'	92
	4. The properties of the 'figure-ground' phe- nomenon	94
	5. The reversible 'figure' and 'ground'	98
IX	THE PROPERTIES OF CONFIGURATIONS	102
	1. The 'goodness' of configurations	102
	2. The relation of the parts to the whole	109
	3. The constancy of configurations	112

CONTENTS

vii

<i>Chapter</i>		<i>page</i>
X	THE FUNCTION OF THE 'GROUND'	119
	1. Colour and brightness constancy	119
	2. The spatial framework	133
	3. Phenomenal regression and shape constancy	141
	4. The indifference point and the negative time error	147
XI	THE PHENOMENA OF APPARENT MOVEMENT	157
	1. The <i>phi</i> phenomenon	157
	2. Apparent movement of various spatial configurations	168
	3. Fusion	173
XII	THE DEVELOPMENT OF PERCEPTION IN CHILDREN	178
XIII	THE TYPOLOGICAL CLASSIFICATION OF INDIVIDUAL DIFFERENCES	190
	1. Perceptual types	190
	2. Imaginal types	194
	3. Types of temperament and personality	200
	4. Synaesthetic types	204
XIV	CONCLUSION	214
<i>Appendix</i>		217
	THE TACHISTOSCOPE	217
	1. The requirements of the tachistoscope	217
	2. The fall tachistoscope or gravity chronometer	218
	3. The pendulum tachistoscope	219
	4. The rotating disc and mirror tachistoscopes	220

 Helmholtz, H. v. *Handbuch der Physiologischen Optik*.
 2nd ed. (1896), p. 514
15. Michotte's tachistoscope: reflecting apparatus *222*
 Michotte, M. A. *Arch. de Psychol.* (1912), **12**, 2
16. Michotte's tachistoscope: rotating disc apparatus *222*
 Michotte, M. A. *Arch. de Psychol.* (1912), **12**, 4
17. Dodge's mirror tachistoscope *224*
 Dodge, R. *Psychol. Bull.* (1907), **4**, 12
18. Tachistoscope of Vincent and Wolters *225*
 Vincent, D. F. and Wolters, A. W. *Brit. J. Psychol.*
 (1931), **22**, 68
19. Grindley's tachistoscope *226*
 Grindley, G. C. *Brit. J. Psychol.* (1933), **23**, 405

ACKNOWLEDGMENTS

My acknowledgments are due to the Medical Research Council for the personal grant which made it possible for me to write this book, and also for their permission to publish it. I wish to thank Professor F. C. Bartlett for allowing me to work in the Psychological Laboratory; and to acknowledge my gratitude to him, to Mr G. C. Grindley, and to others with whom I have discussed the problems dealt with in this book—to all of whom I am greatly indebted. Also I wish to thank Dr R. H. Thouless for reading the proofs.

Acknowledgment for permission to reproduce figures is made to the following:

Julius Springer, Berlin, for Figs. 1, 2, 3, 5, 7, 9; Akademische Verlagsgesellschaft M. B. H., Leipzig, for Fig. 4; the Psychological Review Company for Figs. 6 and 17; Johann Ambrosius Barth, Leipzig, for Figs. 10, 11, 14; *Brain* for Fig. 13; *Archives de Psychologie* for Figs. 15 and 16; the Cambridge University Press for Figs. 18 and 19.

M. D. V.

April 1937.
