

Contents

<i>Preface</i>	<i>page ix</i>
<i>Acknowledgements</i>	<i>xi</i>

Section 1. Anatomy

1. Trachea	1
2. Brachial plexus	3
3. Great veins of the neck	7
4. Antecubital fossa	9
5. Ankle block	11
6. Circle of Willis	15
7. Coronary circulation	17
8. Base of skull	21
9. Diaphragm	23
10. Spinal cord	25
11. Wrist	29
12. Larynx	31

Section 2. History taking

Introduction	35
1. TURP surgery	43
2. Laparoscopic cholecystectomy	45
3. Thyroid surgery	47
4. Shoulder replacement	51
5. Caesarean section	55
6. ENT surgery	59

Section 3. Communication

Introduction	63
Scenarios	65
1. Sickle cell test	65
2. Rapid sequence induction	67
3. Suxamethonium apnoea	68
4. Cancelled surgery	70
5. Tooth damage	71
6. Jehovah's Witness	72

Section 4. Equipment

1. Diathermy	75
2. Defibrillators	77
3. Laryngoscopes	79
4. Endotracheal tubes	89
5. Breathing circuits	95
6. Airways	99
7. Vaporisers	103
8. Scavenging	107
9. Medical gases	109
10. Filters	113
11. Ventilators	115

Cambridge University Press

Table of Contents

[More information](#)

Section 5. Anaesthetic hazards		5. Displaced tracheostomy	183
1. Electricity	119	6. Paediatric emergency	187
2. Lasers	123	7. Intraoperative desaturation	191
3. Positioning	127	8. Tachyarrhythmia	195
4. Blood transfusion	131	9. Anaphylaxis	197
Section 6. Radiology		10. Obstetric haemorrhage	199
1. Chest X-ray	135	Section 9. Procedures	
2. Chest X-ray	137	1. Lumbar puncture	203
3. CT head	139	2. Chest drain	207
4. Cervical spine	141	3. Epidural	210
5. Angiogram	145	4. Surgical airway	215
Section 7. Physical examination		5. Central venous cannulation	217
1. Cardiovascular examination	147	6. Intraosseous access	221
2. Respiratory examination	151	7. Anaesthesia of the eye	223
3. Cranial nerve examination	155	8. Rapid sequence induction	225
4. Obstetric preoperative assessment	159	Section 10. Monitoring and measurement	
5. Peripheral circulation examination	163	1. Capnography	231
6. Airway examination	167	2. Central venous pressure trace	235
Section 8. Resuscitation and simulation		3. ECG 1	239
1. Bradycardia	171	4. ECG 2	241
2. Collapsed obstetric patient	173	5. Humidity	245
3. Malignant hyperthermia	175	6. Invasive blood pressure	249
4. Failed intubation	179	7. Respiratory 1	253
		8. Respiratory 2	257
		9. Noninvasive blood pressure	261
