## Contents

Preface to the fourth edition	<i>page ix</i>
<b>1 Start with a plan</b>	<b>1</b>
Ask fundamental questions first	1
Communication format: the message determines the medium	3
So, where <i>should</i> this paper be published?	8
<b>2 Conduct a comprehensive literature search</b>	<b>14</b>
Adapt to new ways	15
Search many information channels	20
Keep track of your resources	25
<b>3 Prepare for the challenge</b>	<b>28</b>
Take charge of the task	28
Manage your message	31
Work with (and around) your natural inclinations	34
Build momentum and keep it	37
<b>4 Begin well</b>	<b>41</b>
Assess whether your research is ready for publication	41
Deal early with authorship	42
Master the practical mechanics of writing	46
<b>5 Compose the IMRAD core of a strong first draft</b>	<b>55</b>
Tackle the Introduction	55
Write your recipe: Materials, Methods, and variants	60
Marshal your results	62
Develop the Discussion and Conclusions	65
<b>6 Assemble the rest of the first draft</b>	<b>68</b>
Compile a careful and complete reference list	68
Generate a title and other front matter	71
Develop a suitable Abstract or Summary	75
