CAMBRIDGE LIBRARY COLLECTION

Books of enduring scholarly value

Women's Writing

The later twentieth century saw a huge wave of academic interest in women's writing, which led to the rediscovery of neglected works from a wide range of genres, periods and languages. Many books that were immensely popular and influential in their own day are now studied again, both for their own sake and for what they reveal about the social, political and cultural conditions of their time. A pioneering resource in this area is Orlando: Women's Writing in the British Isles from the Beginnings to the Present (<http://orlando.cambridge.org>), which provides entries on authors' lives and writing careers, contextual material, timelines, sets of internal links, and bibliographies. Its editors have made a major contribution to the selection of the works reissued in this series within the Cambridge Library Collection, which focuses on non-fiction publications by women on a wide range of subjects from astronomy to biography, music to political economy, and education to prison reform.

Memoirs of Eminent Englishwomen

Louisa Stuart Costello (1799–1870) was a poet and artist who supported her family with her paintings. As well as writing a number of historical novels, Costello researched and wrote the biographies of many prominent women, using their letters and diaries to tell their extraordinary stories. This fourth volume chronicles the lives of two women; politician and courtier Sarah, Duchess of Marlborough, and poet and satirist Lady Mary Montagu Wortley. Sarah, Duchess of Marlborough, was the close confidante of Queen Anne, and her memoirs offer a detailed picture of the rise and decline of the long friendship between two women at the centre of political life. Lady Mary was an intrepid traveller, an early advocate of inoculation for smallpox, and a feminist poet who had a bitter feud with Alexander Pope. For more information on this author, see http://orlando.cambridge.org/public/svPeople?person_id=costlo

Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection will bring back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
