British and Irish History, General

The books in this series are key examples of eighteenth- and nineteenth-century historiography which show how centuries of political, social and economic change were interpreted during the height of Britain’s power. They shed light on the understanding of dynasty, religion and culture that shaped the domestic, foreign and colonial policy of the British empire.

Catalogue of the Anglo-Jewish Historical Exhibition, Royal Albert Hall, London, 1887

The pogroms in Russia following the assassination of Alexander II led many Jewish scholars in Europe to examine closely the history and culture of their people. Over three months in 1887 the Anglo-Jewish Historical Exhibition in London aimed ‘to promote knowledge of Anglo-Jewish History; to create a deeper interest in its records and relics, and to aid in their preservation,’ while also determining ‘the extent of the materials which exist for the compilation of a History of the Jews in England’. Artefacts illuminating this history, together with religious art and miscellaneous antiquities, were placed on public display and a series of lectures was given. Various academic enterprises, including the Bibliotheca Anglo-Judaica – also edited by Joseph Jacobs (1854–1916) and Lucien Wolf (1857–1930) and reissued in this series – were undertaken as a direct result of this important event. The descriptive catalogue of exhibits, first published in 1888, is also well illustrated with a number of full-page photographs.
Cambridge University Press has long been a pioneer in the reissuing of out-of-print titles from its own backlist, producing digital reprints of books that are still sought after by scholars and students but could not be reprinted economically using traditional technology. The Cambridge Library Collection extends this activity to a wider range of books which are still of importance to researchers and professionals, either for the source material they contain, or as landmarks in the history of their academic discipline.

Drawing from the world-renowned collections in the Cambridge University Library and other partner libraries, and guided by the advice of experts in each subject area, Cambridge University Press is using state-of-the-art scanning machines in its own Printing House to capture the content of each book selected for inclusion. The files are processed to give a consistently clear, crisp image, and the books finished to the high quality standard for which the Press is recognised around the world. The latest print-on-demand technology ensures that the books will remain available indefinitely, and that orders for single or multiple copies can quickly be supplied.

The Cambridge Library Collection brings back to life books of enduring scholarly value (including out-of-copyright works originally issued by other publishers) across a wide range of disciplines in the humanities and social sciences and in science and technology.
It is strongly recommended to use a large reading-glass when examining the photographs in this Catalogue, as it is very difficult for the unaided eye to see the details or many of the inscriptions.
CATALOGUE
OF THE
ANGLO-JEWISH HISTORICAL EXHIBITION
ROYAL ALBERT HALL, LONDON, 1887

COMPiled BY
JOSEPH JACOBs AND LUCIEN WOLF

ILLUSTRATED BY
FRANK HAES

PUBLICATIONS OF THE EXHIBITION COMMITTEE
No. IV.

LONDON
F. HAES, 28, BASSETT ROAD, W.
1888

All Rights Reserved
NOTE.

This Illustrated Edition of the Catalogue of the Anglo-Jewish Historical Exhibition has been prepared in response to a wish generally expressed for a permanent record of the exhibits most noteworthy for their artistic value or historical associations. It has been thought desirable to add at the end a copy of the Report, which contains a short history of the Exhibition.

The negatives were taken by Mr. Frank Haas (a member of the Executive Committee) on the Eastman negative paper in McKellan's roller slide; the prints have been printed in Collotype by the Autotype Company, and are the first from such negatives which have been published in England. Some idea of the scale may be given by the labels, which were almost exactly one inch in length. The coins are of the actual size.
