## Index

- Accountability
  - Models of, 3–4, 50–56
- Alternative interventions, *see also* *Benin study*, *Brazil study*, *Burkina Faso study*, *India study*, *Mexico study*, *Uganda 1 study*, *Uganda 2 study*
  - Examples of, 68, 87, 103–107, 125–126, 148–150, 180–183, 211–214, 283–285, 293–297
- “Bad news”
  - Aggregation of, 69–74
  - Effects of in meta-analysis, turnout, 326
  - Effects of in meta-analysis, vote choice, 323
  - General definition of, 63–66
- Benin study
  - Alternative interventions in, 68, 87, 103–107
  - Common intervention in, 68, 84–85
  - CONSORT diagram of, 90
  - Contextual features of, 81–84
  - Experimental design of, 89, 91
  - Findings of, 94–103, 108–115, 323, 326
  - Good and bad news definition in, 92–94
  - Implementation challenges in, 115–116
  - Randomization procedure in, 87–88
- Brazil study
  - Alternative intervention in, 68, 283–285
  - Common intervention in, 68, 265
  - CONSORT diagram of, 267
  - Contextual features of, 258–265
  - Ethical considerations in, 275–276
- Experimental design of, 265
- Findings of, 276–279, 323, 326
- Good and bad news definitions in, 258
- Implementation challenges in, 274–275
- Randomization procedure in, 267–270
- Burkina Faso study
  - Alternative intervention in, 68
  - Common intervention in, 68, 230–236
  - CONSORT diagram of, 240
  - Contextual features of, 223–228
  - Experimental design of, 229–239
  - Findings of, 241–246, 323, 326
  - Good and bad news definitions in, 239–241
  - Randomization procedure in, 230, 239
- Clientelism, moderation of informational effects of
  - In theory, 55–56
  - In meta-analysis results, 361
- Co-ethnicity, moderation of informational effects of
  - In theory, 55–56
  - In meta-analysis results, 361
- Common Interventions
  - Examples of, 68
- Cumulative learning
  - Challenges to, 16–20, 42–45, 406–415
  - Experiments and, 20–25
  - Validation of, in policy experiment, 13, 375–400

## Index

463

- Ethnicity, *see* *Co-ethnicity, moderation of informational effects of*
- Experiments  
 Excludability assumption in, 21  
 External validity of, 20–25  
 Harmonization of interventions in, 42–45  
 Mechanisms in, 21–22  
 Replication of, 22–25  
 Scale of, 22  
 Utility of, 27
- External validity  
 Challenges to, 16–20, 42–45, 406–415  
 Experiments and, 20–25  
 Validation of, in policy experiment, 13, 375–400
- “Good news”  
 Aggregation of, 69–74  
 Effects of in meta-analysis, turnout, 326  
 Effects of in meta-analysis, vote choice, 323  
 Definition of, 63–66
- Heterogeneity  
 Context-specific, 358–372  
 Intervention-specific, 358–372  
 Problem of, 17–18  
 Reduction of, 42–45  
 Sartori’s ladder of abstraction, as way to address, 43–44
- Incentives mechanism  
 for information’s effect on accountability, 3–4, 50–56
- India study  
 Alternative interventions in, 68, 293–297  
 Common intervention in, 68, 293–297  
 CONSORT diagram of, 291  
 Contextual features of, 288–290, 297–299  
 Experimental design of, 293  
 Findings of, 303–311  
 Good and bad news definitions in, 293–294  
 Implementation challenges in, 295–296, 299–303  
 Randomization procedure in, 290–292
- Information deficits  
 About public services, 3  
 About corruption, 3
- Informational interventions  
 Effects on accountability of, in previous research, 5–6, 57–60  
 Possible perverse effects of, 3–4, 50–56  
 Theory of, 54
- Integrated publication  
 in Metaketa Initiative, 38–39  
 Value of, 29, 409–410
- Mexico study  
 Alternative interventions in, 68, 125–126, 148–150  
 Common intervention in, 68, 125–126  
 CONSORT diagram of, 129  
 Contextual features of, 119–122  
 Experimental design of, 122–127  
 Findings of, 134–141, 148–150, 323, 326  
 Good and bad news definitions in, 129–132  
 Implementation challenges in, 150–154  
 Randomization procedure in, 126–127
- Meta-analysis  
 Aggregation issues in, 69–77  
 Bayesian approach to, 327–331  
 Deviations from pre-analysis plan in, 335–345  
 Estimand in, 45–47  
 Estimation approach in, 318–322  
 Findings of, 322–326  
 Good and bad news definitions in, 318–322  
 Hypotheses of, 316–318, 361  
 Learning from variation in, 358–372  
 Of alternative interventions, 369–372  
 Outcome measures in, 76–77, 331–332  
 Pre-Analysis Plan of (MPAP), 417–447  
 Power of, 345–347  
 Study-level attrition in, 333–334
- Metaketa I, *see* *Meta-analysis*  
 Cumulative learning from, assessment of, 375–400  
 Findings from, 404–406  
 Hypotheses of, 61–63, 316–318, 361  
 Studies in, 9–10
- Metaketa Initiative  
 Challenges of, 406–415  
 Ethical principles of, 41–42, 275–276  
 Implementation of, 30–35  
 Pillars of, 8–9, 25–30, 420  
 Rationale for, 7, 16–20

*Index*

- Replication and innovation in, 28, 34–35
- Research transparency in, 38–40
- News, *see* “Good news” and “Bad news”
- Null effects
  - Importance of, 12
- Partisanship, moderation of informational effects of
  - In theory, 55–56
  - In meta-analysis results, 361
- Performance Information (P)
  - Aggregation of, 69–74
  - Definition of, 63–66
  - Examples of, 68, 71, 84–85, 125–126, 160–162, 192–195, 230–236, 265, 293–297
- Priors (Q)
  - Aggregation of, 69–74
  - Definition of, 63–66, 71
  - Examples of, 71
- Policy experiment
  - Design of, 380–389
  - Hypotheses of, 377–380
  - Results of, 389–398
- Politician response
  - to information dissemination, 150–154, 295–296, 299–303, 355–358
- Pre-registration
  - Impacts of, 36–38
  - In Metaketa Initiative, 38
  - Value of, 28–29
  - Varieties of, 36–38
- Private data
  - Threats of, 18–19
- Publication bias
  - Threats of, 18, 60–61
  - Solutions to, 28–29, 222–223
- Registration, *see* Pre-registration
- Replication
  - Challenges to, 17–19, 22–25, 28
- Selection mechanism
  - for information’s effect on accountability, 3–4, 50–56
- Selective reporting, 18
- Study scarcity, 17, *see* Meta-analysis, *Findings of*
- Theory of change
  - in Metaketa I, 54, 61–63, 316–318, 361
- Turnout
  - Effects of good and bad news on, in meta-analysis, 326
- Transparency promotion initiatives, 4–5
- Uganda 1 study
  - Alternative interventions in, 68, 180–183
  - Common intervention in, 68, 160–162
  - CONSORT diagram of, 167
  - Contextual features of, 156–158, 171–172
  - Experimental design of, 162–165
  - Findings of, 172–180, 323, 326
  - Good and bad news definitions in, 168–171
  - Randomization procedure in, 165–166
- Uganda 2 study
  - Alternative interventions in, 68, 211–214
  - Common intervention in, 68, 192–195
  - CONSORT diagram of, 193
  - Contextual features of, 188–192
  - Experimental design of, 195–198
  - Findings of, 200–210, 323, 326
  - Good and bad news definitions in, 198–199
  - Randomization procedure in, 197–198
- Updating by voters
  - In theory, 55–56
  - In meta-analysis results, 348–369
- Vote choice
  - Effects of good and bad news on, in meta-analysis, 323, 326
