appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-  
date information that is in accord with accepted standards and practice at the time  
of publication. Although case histories are drawn from actual cases, every effort  
has been made to disguise the identities of the individuals involved. Nevertheless,  
the authors, editors, and publishers can make no warranties that the information  
contained herein is totally free from error, not least because clinical standards  
are constantly changing through research and regulation. The authors, editors,  
and publishers therefore disclaim all liability for direct or consequential damages  
resulting from the use of material contained in this book. Readers are strongly  
advised to pay careful attention to information provided by the manufacturer of any  
drugs or equipment that they plan to use.
