

## INDEX

- ABC v. St George's Healthcare NHS Trust*, 159–60
- absent autonomy  
 acquired dignity and, 130–2  
 dignity and, 130–2  
 inherent dignity and, 130–2  
 proportionate benefits and, 130–1
- acquired dignity, 124–8  
 absent autonomy and, 130–2  
 respect for autonomy overridden by, 129
- ACRCR. *See* Australian Code for the Responsible Conduct of Research
- actualising autonomy, 70–4  
 adequate options and, 70–6
- addiction, 9. *See also* heroin-assisted treatment
- autonomy competence and, 48–9, 55–6, 60–2
- autonomy impacted by, 51–4
- coercive treatment and, 50
- compulsory civil commitment and, 50–1, 55–6
- decisional autonomy and, 9–10, 52–3, 60
- diminished autonomy and, 48–62
- DSM-5 and, 51
- executive autonomy and, 9–10, 52–4, 60–2
- as externalising disorder, 59
- informed consent and, 60
- internal sovereignty and, 70
- mandatory treatment and, 48
- resigned addicts and, 54–5, 61–2
- spontaneous remission and, 48
- Additional Protocol to the Convention on Human Rights and Biomedicine, 103
- doing good in, 104–5
- harm and, 105–9
- proportionate benefits and, 109–12
- special protections for the vulnerable and, 111–16
- adequate options  
 actualising autonomy and, 70–6  
 social gradient in health and, 75–7  
 socio-economic inequality and, 71–7
- Asch, Adrienne, 37
- Australia  
*Choosing Wisely* and, 142, 145  
 data misuse and, 183  
 NS and, 183  
 public health campaigns and, 63
- Australian Code for the Responsible Conduct of Research (ACRCR), 147–8, 183
- autonomy. *See* formal liberal autonomy; *specific topics*
- autonomy at law, 9, 17–32
- ABC v. St George's Healthcare NHS Trust* and, 159–60
- as burden, 28–9
- Burke v. GMC* and, 28, 31
- Chester v. Afshar* and, 155
- cit  * and, 161–2
- communitarian approach to, 160–7
- as fiction, 29–31
- as fundamental, 17–18, 21, 27
- informed consent and, 19–26, 30–2
- liberty and, 26–8, 155–8

- Montgomery v. Lanarkshire Health Board* and, 156–7  
 as obligation, 28–30  
*R v. Brown* and, 27  
*R v. Collins* and, 27  
 relational autonomy and, 158–61, 167  
 self-determination and, 28, 32  
 UK and, 27–8, 31, 154–67  
 autonomy competence, 49  
   addiction and, 48–9, 55–6, 60–2  
   mental illness and, 55  
 availability bias, role virtues and, 137
- Baehr, J., 140  
 balancing model, 82, 91–5  
   exploitation and, 83, 86–8  
   paternalism and, 82–6  
   self-determination and, 82–6, 88–9  
   self-ownership and, 83, 86–9, 92–3
- Bartholome, Bill, 37  
 Batson, Daniel, 135  
 Battaly, H., 140  
 Beauchamp, Thomas, 10–11, 96, 99–101
- Beecher, Henry, 11, 33–4  
   role virtues and, 134
- Belmont Report, 6
- benchmarks  
   institutional environments, provided in, 142  
   UK and, 142
- beneficence, 11, 96–116  
   altruistic understanding of, 100  
 Beauchamp and Childress on, 96, 99–101  
   dignity and, 120–1  
   as doing good, 99–101, 104–5  
   Frankena on, 99–102  
   harm, as avoiding, 99–101, 104–9  
   human research ethics guidelines and, 96–9, 102–16  
   as motivation, 102  
   non-maleficence and, 99–102  
   Nuremberg Code and, 4–5, 97  
   paternalism and, 96–7  
   pluralism and, 82
- prima facie duties derived from, 99–102  
 proportionate benefits and, 104, 109–12  
 respect for autonomy, tension with, 96–9  
 self-determination and, 84  
 special protections for the vulnerable and, 104, 111–16  
 universalistic understanding of, 100, 104
- Berridge, Kent, 59
- biases  
   availability, 137  
   confirmation, 137, 142  
   institutional environments addressing, 141–2  
   regulatory environments addressing, 143–6  
   role virtues and, 134  
   selection, 144–5
- bio-banking, informed consent and, 2
- Bodin, Jean, 161, 163
- boundaries of rights, 95  
   self-determination and, 89  
   self-ownership and, 89, 92
- Brock, Dan, 84
- Burke v. GMC*, 28, 31
- Byerly, M., 148–9
- Byerly, T. R., 148–9
- Caldicott, Fiona, 153
- Campos, N. G., 175–6
- capability theory, 45
- cardiovascular disease, socio-economic inequality and, 66, 77
- Care.data, 153–4
- Cassell, Jackie, 161–3, 165
- causation, informed consent and, 21–2
- Celexa and Lexapro Marketing and Sales Practices Litigation*, 185
- character traits, role virtues as, 134–5
- Charland, Louis, 57–8, 60
- Chen, X., 197
- Chester v. Afshar*, 155
- children  
   clinical trials and, 38–9, 42, 44, 46–7, 184–8

- children (cont.)  
 CureSMA and, 41  
 informed consent and, 37–8, 43  
 lack of autonomy and, 33–47  
 mutualism and, 45  
 National Commission for the  
 Protection of Human Subjects of  
 Biomedical and Behavioral  
 Research and, 36–8, 40–1, 43  
 parental consent and, 37–47  
 relational autonomy and, 45–6  
 respect for autonomy and, 9  
 SMA and, 41–3, 46–7  
 vicarious consent and, 43–4  
 Childress, James, 10–11, 96, 99–101  
*Choosing Wisely*, 142, 145  
 CIOMS guidelines. *See* International  
 Ethical Guidelines for Biomedical  
 Research Involving Human  
 Subjects  
 citalopram, data misuse and, 184–8,  
 192–4  
*cit *, 161–2  
 clinical trials, 172–4  
 children and, 38–9, 42, 44, 46–7,  
 184–8  
 data misuse and, 184–99  
 LDCs and, 169–82  
 oncology and, 145  
 regulatory environments for, 144–6  
 selection bias and, 144–5  
 coercive treatment, addiction and, 50  
 Coggon, John, 19–20, 27, 32, 155–6  
 collective cultural property, 94  
 collective virtues, 148–9  
 common goods, 12  
 communitarian approach to autonomy  
 at law, 160–7  
 community-based research in LDCs,  
 180–2  
 compromised autonomy, 2, 8  
 dignity and, 129–30  
 socio-economic inequality and, 10,  
 63–8, 71–7  
 special protections for, 111–16  
 compulsory civil commitment  
 addiction and, 50–1, 55–6  
 autonomy competence and, 55–6  
 confirmation bias, 142  
 role virtues and, 137  
 consent  
 informed consent versus, 18–20  
 trespass and, 18–19  
 Convention for the Protection of  
 Human Rights and Dignity of the  
 Human Being with regard to the  
 Application of Biology and  
 Medicine (Oviedo Convention),  
 5–6. *See also* Additional Protocol  
 to the Convention on Human  
 Rights and Biomedicine  
 Courtwright, Andrew, 73–4  
 Cullity, Garrett, 101–2  
 CureSMA, 41  
 data misuse, 13, 183–99  
 Australia and, 183  
 as breach of trust, 191–2  
*Celexa and Lexapro Marketing and  
 Sales Practices Litigation* and, 185  
 citalopram and, 184–8, 192–4  
 clinical trials and, 184–99  
 deception and, 194  
 exploitation and, 192–4  
 Forest companies and, 185–7, 192–4  
 frequency of, 187  
 harms of, 188–95  
 informed consent and, 193–5  
 open data addressing, 195–6  
 paroxetine and, 189  
 participants of research impacted by,  
 190–4, 197–8  
 patients impacted by, 188–9  
 professional integrity and, 183–4  
 public trust damaged by, 190  
 remedies for, 194–9  
 researcher culture and, 196–8  
 researchers impacted by, 189–90  
 restorative justice and, 197–8  
 scientific progress hindered by, 188  
 Vioxx and, 189  
 vulnerability analysis and, 13  
 data storage, informed consent and, 2  
 deception  
 data misuse and, 194  
 psychological research and, 90–1, 94

- decisional autonomy, addiction and, 9–10, 52–3, 60
- Declaration of Helsinki, 1964, 170  
 free consent and, 4–5
- Declaration of Helsinki, 2013, 170  
 informed consent and, 5  
 respect for autonomy and, 5, 7
- deferential wife example, 70, 73–5
- Diagnostic and Statistical Manual of Mental Disorders (DSM-5),  
 addiction in, 51
- dignity, 11, 117–32  
 absent autonomy and, 130–2  
 acquired, 124–32  
 beneficence and, 120–1  
 compromised autonomy and, 129–30  
 existential dimension of, 117, 124–5  
 hermeneutical ethics and, 117–18, 126–7  
 human research ethics guidelines and, 121, 126–32  
 informed consent and, 129–30  
 inherent, 124–5, 127–32  
 justice and, 120–1  
 ontological dimension of, 117, 124–5  
 paternalism and, 117–18, 131  
 proportionate benefits and, 128  
 respect for autonomy grounded in, 117–21, 127–9  
 respect for autonomy overridden by, 129  
 Tuskegee syphilis studies and, 120, 129
- dignity talk, 121–2  
 embryonic stem cells and, 121
- diminished autonomy, 1–2, 7–8  
 addiction and, 48–62  
 CIOMS guidelines and, 6  
 special protections for, 111–16
- direct-to-consumer advertising (DTCA), 143
- doctor–patient relationship, 29
- doing good, beneficence as, 99–101, 104–5
- DSM-5. *See* Diagnostic and Statistical Manual of Mental Disorders
- DTCA. *See* direct-to-consumer advertising
- duties, communitarian, 162–3. *See also* prima facie duties
- duty to inform, 19–26, 30–1
- Dworkin, R. B., 24–5
- dyadic researcher-participant relationship, limits of, 169, 173–8
