Section 1. Ward Care (Level 0–2)	1
1. Airway	3
Basic Concepts	3
Airway Assessments	3
Oxygen: Basic Physiology	5
Carbon Dioxide: Basic Physiology	10
Oxygen: Therapy	14
Oxygen: Monitoring (Pulse Oximetry)	16
Procedure	18
Airway Adjuncts	18
2. Breathing	22
Basic Concepts	22
Respiratory Assessment	22
Atelectasis	26
Bronchiectasis	31
Pneumonia	34
Pneumothorax	40
Complex Concepts	44

viii Contents

Acute Respiratory Distress Syndrome (ARDS)	44
Flail Chest	51
Pulmonary Thromboembolism (PE)	54
Respiratory Failure	61
Procedure	65
Chest Drains: The Surgical Way	65
3. Circulation	72
Basic Concepts	72
Cardiac Assessment	72
Blood Pressure Monitoring	74
Blood Products	79
Blood Transfusion	88
ECG: Basic Concepts	95
ECG: Complex Concepts	100
Fluid Therapy	107
Jugular Venous Pulse (JVP)	114
Complex Concepts	118
Aortic Dissection	118
Cardiogenic Shock	124
Coagulation Defects	131
Disseminated Intravascular Coagulation (DIC)	135
Fat Embolism Syndrome	138
Haemorrhagic Shock	144
Procedures	151
Arterial Lines: Intra-Arterial Blood Pressure Monitoring	151
Central Access: Central Lines	156
4. Disability	166
Basic Concepts	166

Neurological Assessment	166
Analgesia	168
Complex Concepts	174
Cerebral Physiology: Basic Principles	174
Cerebral Pathophysiology: Basic Principles	179
Spinal Injury	186
Procedure	190
Lumbar Puncture	190
5. Exposure (Everything Else)	195
Homeostasis	195
Acid-Base Balance	195
Metabolic Acidosis	199
Metabolic Alkalosis	202
Lactic Acidosis	204
Electrolyte Balance: Calcium (and Phosphate)	207
Electrolyte Balance: Magnesium	212
Electrolyte Balance: Potassium	215
Electrolyte Balance: Sodium	219
Oliguria: Low Urine Output State	223
Renal	228
Renal Failure: Acute Kidney Injury (AKI)	228
Renal Failure: Chronic Kidney Disease (CKD)	235
Other Systemic Processes	240
Burns	240
Nutrition: Basic Concepts	247
Nutrition: Enteral	252
Nutrition: Total Parenteral (TPN)	255
Rhabdomyolysis	257

x Contents

Sepsis: Definitions and Management	262
Systemic Response to Trauma	269
Section 2. Intensive Care (Level 3)	275
6. Intensive Care Unit	277
Assessment	277
Agitation and Sedation	277
Complex Concepts	281
Brainstem Death and Organ Donation	281
Circulatory Support: Inotropic Agents	287
Endotracheal Intubation	294
Extubation and Weaning	298
ICU Admission Criteria	300
Mechanical Ventilation and Support	302
Pulmonary Artery Catheters	305
Renal Replacement Therapy	309
Septic Shock and Multi-Organ Dysfunction Syndrome (MODS)	314
Transfer of the Critically Ill Patient	318
Procedure	321
Tracheostomy	321
<i>Index</i>	326
