Every effort has been made in preparing this book to provide
accurate and up-to-date information that is in accord with accepted
standards and practice at the time of publication. Although case
histories are drawn from actual cases, every effort has been made to
disguise the identities of the individuals involved. Nevertheless, the
authors, editors, and publishers can make no warranties that the
information contained herein is totally free from error, not least
because clinical standards are constantly changing through research
and regulation. The authors, editors, and publishers therefore
disclaim all liability for direct or consequential damages resulting
from the use of material contained in this book. Readers are
strongly advised to pay careful attention to information provided by
the manufacturer of any drugs or equipment that they plan to use.
