THE BONDING OF BRICKWORK
THE

BONDING OF BRICKWORK

BY

WILLIAM FROST

Lecturer and Instructor in Brickwork
at the

London County Council
“School of Building”,
Brixton

Author of: “The Modern Bricklayer”
“Constructive Sanitary Work” and
“Brick Arches, their Setting-out and
Construction”

CAMBRIDGE

AT THE UNIVERSITY PRESS

1933
CONTENTS

*The Bonding of brickwork* page 1
Patterns of bricks to be used for bonding  *facing page* 24
Examples of face bonds  *figs. 1–12*
English bond. Plans  13–16a
Flemish bond. Plans  17–20
English bond with Flemish face. Plans  21–24
Quoins in English bond. Plans of external angles  25–31
Quoins in Flemish bond. Plans of external angles  32–34
Quoins in single Flemish bond. Plans of external angles  35, 36
Quoin bonds for cavity walls. Plans of external angles  37, 38
Squint quoins: English bond. Plans of acute angles  39–48
Squint quoins: Flemish bond. Plans of acute angles  44–48
Squint quoins: single Flemish bond. Plans of acute angles  49–52
Squint quoins: recessed corner. Plans of acute angles  53, 54
Squint quoins: English bond. Plans of obtuse angles  55–59
Squint quoins: Flemish bond. Plans of obtuse angles  60–64
Squint quoins: single Flemish bond. Plans of obtuse angles  65–68
Reveals in English bond  69–81
Reveals in Flemish bond  82–93
vi CONTENTS

Attached plain piers in English bond figs. 94–114
Attached plain piers in Flemish bond walls 115–143
Attached piers with chamfered angles 144, 145
Double attached plain piers in English bond walls 146–152
Miscellaneous examples of attached piers 153–155
Square junctions in English bond 156–160
Square junctions in Flemish bond 161–165
Square junction to walls with one face in Flemish bond 166–169
Splay junctions 170–175
Cross junctions 176–181
Junctions of curved and straight walls 182–185
“Breaks” or “Returns” 186–194
Isolated piers: English bond 195–200
Isolated piers: Flemish bond 201–204
Chimney-stack bonds 205–210
Fireplace openings 211–213
Quoins, stopped ends and reveals 214–217
Stepped reveals 218–225
Projecting quoins 226–230
Miscellaneous examples of bonding 231–238
Broken bond above and below openings 254–260
Bond at openings in cavity walls 261–264
Square-angled bay windows 265, 266
Footings to quoins of various walls 267–269
Footings to piers 270–272
Footings to obtuse and acute quoins 273, 274
Special bonding for various examples 275–278
Pattern bonding 279, 280
Brickwork panels 281–288
Examples for Practice at end
