## Contents

1. The clinicopathologic spectrum of cutaneous B-cell lymphomas
   L. Cerroni, H. Kerl

2. Effects of light on skin
   D. M. Guerin

3. Reactive and neoplastic histiocytic skin disorders
   J. Wechsler

4. Sentinel lymph node pathology
   A. J. Cochran

5. The clinical and molecular pathology of Barrett’s oesophagus
   L.R. Biddlestone, T.A. Bailey, C.E. Whittles N.A. Shepherd

6. X-ray micro-computed tomography using Synchrotron radiation
   T. Takeda, Y. Itai

7. The molecular basis of inherited skin disorders
   M. Giles S. Dunnill, Irene M. Leigh

8. Routine reporting of non-neoplastic gastric biopsies
   J. Watt

9. Arterial remodelling: mechanisms of altered artery structure and their diagnostic implications for pathologists
   G.B.M. Lindop, J. J. Boyle

10. Error in histopathology
    S. L. Wakely, P. J. Gallagher

11. Information: theoretical and applied
    J. A. Morris
