Foreword by David Goldberg	xii
Foreword by Robert E. Drake	xiv
Preface: an evolving perspective of mental health outcome measures	xv
Part I. Methodological issues	
1 Measures of outcomes that are valued by service users <i>Thomas Kabir and Til Wykes</i>	3
2 Statistical methods for measuring outcomes <i>Graham Dunn</i>	15
3 Assessment instruments in mental health: description and metric properties <i>Luis Salvador-Carulla and Juan Luis González-Caballero</i>	28
4 Using outcomes in routine clinical practice to support recovery <i>Mike Slade, Lindsay Oades and Bernd Puschner</i>	63
Part II. Domains of outcome measurement	
5 Global functioning scales <i>Emese Csipke and Til Wykes</i>	83
6 Satisfaction with mental health services <i>Mirella Ruggeri</i>	99
7 Measuring family and carer burden in severe mental illness: the instruments <i>Bob van Wijngaarden and Aart H. Schene</i>	116
8 Measures of quality of life for persons with severe mental disorders <i>Anthony F. Lehman and Antonio Lasalvia</i>	135

 CONTENTS

9	Measuring social disabilities in mental health and employment outcomes <i>Durk Wiersma and Thomas Becker</i>	169
10	Measuring the costs of mental healthcare <i>Paul McCrone and Scott Weich</i>	182
11	Assessing needs for mental healthcare <i>Mike Slade, Sonia Johnson, Michael Phelan and Graham Thornicroft</i>	194
12	Measuring stigma and discrimination related to mental illness <i>Elaine Brohan, Mike Slade, Sarah Clement and Graham Thornicroft</i>	204
Part III. Symptom severity outcome measures		
13	Top-down versus bottom-up measures of depression <i>David Goldberg</i>	223
14	Symptom severity outcome measures for depression <i>Tom Trauer and David J. Castle</i>	237
15	Outcome measures for people with personality disorders <i>Paul Moran and Rohan Borschmann</i>	251
16	The Schedules for Clinical Assessment in Neuropsychiatry and the tradition of the Present State Examination <i>John K. Wing and Traolach S. Brugha</i>	266
Part IV. International approaches to outcome assessment		
17	Psychiatric assessment instruments developed by the World Health Organization <i>Norman Sartorius, Aleksandar Janca, Shekhar Saxena and T. Bedirhan Üstün</i>	281
18	Measuring outcomes in mental health: implications for policy <i>Rachel Jenkins, Graham Mellsop and Bruce Singh</i>	313
19	Outcome measures for the treatment of depression in primary care <i>William E. Narrow and Farifteh F. Duffy</i>	319
