Cambridge University Press has no responsibility for the persistence or accuracy of  
URLs for external or third-party internet websites referred to in this publication  
and does not guarantee that any content on such websites is, or will remain,  
accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date information that is in  
accord with accepted standards and practice at the time of publication. Although case histories are drawn  
from actual cases, every effort has been made to disguise the identities of the individuals involved.  
Nevertheless, the authors, editors, and publishers can make no warranties that the information contained  
herein is totally free from error, not least because clinical standards are constantly changing through research  
and regulation. The authors, editors, and publishers therefore disclaim all liability for direct or consequential  
damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful  
attention to information provided by the manufacturer of any drugs or equipment that they plan to use.
