

EDINBURGH JOURNAL OF BOTANY

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that links traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. Authors whose mother tongue is not English should if possible have their papers checked by a native English speaker before submission.

There are no page charges. A PDF file and 25 offprints will be supplied free of charge for volume 63 but only PDF files will be available from volume 64 onwards. Further offprints may be purchased through the publisher for volume 63. Colour plates may be included but these will be charged to the author. Halftone plates are free of charge.

Text should be double spaced throughout with wide margins. All pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used other than in specimen citations where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. It will be assumed that correspondence should be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow:

BRUMMITT, R. K. & POWELL, C. E. (eds) (1992). *Authors of Plant Names*. Kew: Royal Botanic Gardens, Kew; KIRK, P. M. & ANSELL, A. E. (1992). *Authors of Fungal Names* [Index to Fungi Supplement]. Wallingford: CAB International.

Herbarium abbreviations should follow:

Journal abbreviations should follow:

Book title abbreviations should follow:

STAFLEU, F. A. & COWAN, R. S. (eds) (1976-88). *Taxonomic Literature*. 2nd edition. 7 vols [Regnum Veg. vols 94, 98, 105, 110, 112, 115, 116]; STAFLEU, F. A. & MENNEGA, E. A. (eds) (1992-). *Taxonomic Literature*. Supplements [Regnum Veg. vols 125, 130, 132], except that all abbreviated words should be capitalized, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Long, 1994) or 'as stated by Long (1994)'. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the **reference list**, references should be typed in alphabetical order and should appear in the following style:

Tables should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1-4). Line drawings should be scanned in black and white at 800 dpi and photographs at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. A measured scale mark should be included on each illustration to indicate magnification. The maximum page area for figures is 12.5 x 19.5cm to include caption.
