The Israel-Palestine Conflict
One Hundred Years of War
Second edition
James L. Gelvin

The conflict between Israelis and Palestinians has lasted over a century. James L. Gelvin’s account of that conflict, from the first glimmerings of national consciousness among Jews and Ottoman Palestinians to the present, offers a compelling, accessible and up-to-the-moment introduction for students and general readers. The book makes no attempt to be encyclopaedic in coverage. It is interpretive, with a thematically composed introduction, and set within the framework of global history.

‘While debunking the national mythologies of Zionism and Palestinian nationalism, Gelvin has a humane and reasoned approach to the plight of both peoples.’
Joel Beinin, Director of Middle East Studies, American University in Cairo

Colin Shindler’s book traces Israel’s history across sixty years, from its optimistic beginnings, through the wars with its Arab neighbours, and the confrontation with the Palestinians. ‘Shindler’s study cuts through the slogans and propaganda that have come to shape debate on both sides to offer clear and compelling insight into Israel’s development. We are all in his debt.’

Arab Soccer in a Jewish State
The Integrative Enclave
Tamir Sorek

The growing success of Arab soccer teams and players in Israel highlights fundamental tensions and contradictions in Israeli collective identity and in Arab-Jewish relations. This book analyzes the political significance of sport in ethno-national conflicts and argues that equality in the soccer sphere legitimizes contemporary inequality between Jews and Arabs.

‘This is a surprising story of the only sphere in which Arab-Israeli relations do not seem to be in crisis. Sorek has written a subtle and apparently non-partisan account of the place of Arabs in the Jewish state. Thanks to its refreshingly clear prose, this book should have an appeal beyond specialists in the field.’

Discovering Levinas
Michael L. Morgan
Morgan demystifies Levinas by examining his unfamiliar and surprising vocabulary, interpreting texts with an eye to clarity, and arguing that Levinas can be understood as a philosopher of the everyday. Neither glib dismissal nor fawning acceptance, Morgan provides a sympathetic reading that can form a foundation for a responsible critique.

Maimonides on the Origin of the World
Kenneth Seeskin

Although Maimonides’ discussion of creation is one of his greatest philosophic contributions – he himself claims that belief in creation is second in importance only to belief in God – there is still considerable debate on what the contribution was. Kenneth Seeskin takes a close look at the problems Maimonides faced.

‘In short, this is a mature work of a scholar who need not parade his talents … I would recommend it as a text for any course in Jewish philosophy or of medieval philosophy more generally.’

Jews and Heretics in Catholic Poland
A Beleaguered Church in the Post-Reformation Era
Magda Teter

‘Jews and Heretics is an original book, based on wide-ranging research in Polish libraries and archives. Teter has a persuasive thesis that will be of interest to all historians of early modern Europe.’

Modernism, Feminism, and Jewishness
Maren Tova Linett
Maren Linett analyzes the meanings and motifs that Virginia Woolf, Jean Rhys, Sylvia Townsend Warner, Dorothy Richardson, and Djuna Barnes associate with Jewishness. By examining the political and literary power of Semitic discourse, Linett fills a significant gap in the account of the cultural and literary forces that shaped modernism.

The Jewess in Nineteenth-Century British Literary Culture
Nadia Valman
Nadia Valman investigates how the figure of the Jewess brought the instabilities of nineteenth-century religious, racial and national identity into sharp focus. Reading Walter Scott, George Eliot and Anthony Trollope alongside Charlotte Elizabeth Tonna, Grace Aguilar and Amy Levy, Valman demonstrates the remarkable persistence of this theme across the century.
