1. Anthropological Demography and Human Evolutionary Ecology	1
Two Solitudes	
Why Bother?	
Anthropological Demography: Culture, not Biology	
Human Behavioral Ecology: Biology, not Culture	
Human Behavioral Ecology	
Discussion: Cultural and Biological Reductionism	
2. Reconciling Anthropological Demography and Human Evolutionary Ecology	43
Common Ground	
Demographic Strategies	
Reproductive Interests: Social Interactions, Life Effort, and Demographic Strategies: A Rendille Example	
Sepaade as Male Mating Effort	
Rendille Primogeniture as a Parenting Strategy	
Summary: Demographic Strategies as Links Between Biology and Culture	
3. Mating Effort and Demographic Strategies	70
Mating Effort as Demographic Strategies	
Cross-Cultural Mating Strategies: Polygyny and Bridewealth; Monogamy and Dowry	
Bridewealth and the Matter of Choice	
Demographic and Cultural Change: Values and Morals	
The End of the Sepaade Tradition: Behavioral Tracking and Moral Change	
4. Demographic Strategies as Parenting Effort	111
Parenting Effort and the Theory of Allocation	
The Trivers–Willard Model and Parenting Strategies	
Parity-Specific Parental Strategies: The Case of Primogeniture	
	vii

viii	Contents	
	Parental Investment: The Local Resource Competition Model	
	Infanticide and Child Abandonment: Accentuating the Negative	
	Adoption in Modern China: Stressing the Positive	
	Summary: Culture and Biology in Inheritance Strategies	
5.	Future Research Directions	155
	The Centrality of Sex in Anthropology and Evolution	
	Male Sexuality, Education, and High-Risk Behavior	
	Final Ground: Demographic Transitions
