## Contents

<i>Preface</i>	ix
<b>1 Classical Statistical Procedures</b>	1
1.1 Introduction	1
1.2 The Score Vector, the Information Matrix, and the Cramer–Rao Lower Bound	2
1.3 Maximum Likelihood Estimators and Test Procedures	2
1.4 Nuisance Parameters	4
1.5 Differentiation and Asymptotics	5
<b>2 Elements of Matrix Algebra</b>	7
2.1 Introduction	7
2.2 Kronecker Products	7
2.3 The Vec and the Devec Operators	10
2.4 Generalized Vec and Devec Operators	14
2.5 Triangular Matrices and Band Matrices	23
<b>3 Zero-One Matrices</b>	28
3.1 Introduction	28
3.2 Selection Matrices and Permutation Matrices	29
3.3 The Commutation Matrix and Generalized Vecs and Devecs of the Commutation Matrix	29
3.4 Elimination Matrices $L, \bar{L}$	43
3.5 Duplication Matrices $D, \bar{L}'$	43
3.6 Results Concerning Zero-One Matrices Associated with an $n \times n$ Matrix	44
3.7 Shifting Matrices	46
<b>4 Matrix Calculus</b>	67
4.1 Introduction	67
4.2 Basic Definitions	68
4.3 Some Simple Matrix Calculus Results	69
	vii

Table of Contents

[More information](#)

viii	<i>Contents</i>	
	4.4 Matrix Calculus and Zero-One Matrices	69
	4.5 The Chain Rule and the Product Rule for Matrix Calculus	71
	4.6 Rules for Vecs of Matrices	73
	4.7 Rules Developed from the Properties of $K_{Gn}$ , $K_{Gn}^{\bar{r}}$ , and $K_{nG}^{\bar{r}}$	78
	4.8 Rules for Scalar Functions of a Matrix	80
	4.9 Tables of Results	83
<b>5</b>	<b>Linear-Regression Models</b>	87
	5.1 Introduction	87
	5.2 The Basic Linear-Regression Model	88
	5.3 The Linear-Regression Model with Autoregressive Disturbances	90
	5.4 Linear-Regression Model with Moving-Average Disturbances	100
	Appendix 5.A Probability Limits Associated with the Information Matrix for the Autoregressive Disturbances Model	107
	Appendix 5.B Probability Limits Associated with the Information Matrix for the Moving-Average Disturbances Model	108
<b>6</b>	<b>Seemingly Unrelated Regression Equations Models</b>	110
	6.1 Introduction	110
	6.2 The Standard SURE Model	110
	6.3 The SURE Model with Vector Autoregressive Disturbances	117
	6.4 The SURE Model with Vector Moving-Average Disturbances	132
	Appendix 6.A Probability Limits Associated with the Information Matrix of the Model with Moving-Average Disturbances	142
<b>7</b>	<b>Linear Simultaneous Equations Models</b>	146
	7.1 Introduction	146
	7.2 The Standard Linear Simultaneous Equations Model	148
	7.3 The Linear Simultaneous Equations Model with Vector Autoregressive Disturbances	161
	7.4 The Linear Simultaneous Equations Model with Vector Moving-Average Disturbances	184
	Appendix 7.A Consistency of $\tilde{R}$ and $\tilde{\Sigma}$	195
	<i>References and Suggested Readings</i>	197
	<i>Index</i>	201
