

Index

- Abortion, 140, 148-151, 153, 155
 Abstinence from sex, postpartum, 149-151, 154-155
 Africa (20th c.), 47, 88, 90
 Age, average, 81; females, 89-90, 175; males, 102, 175; both sexes, 104; at death, 89, 102, 105
 Age at childbirth, 51; maternity, 37, 42-43, 136-137, 139; paternity, 42-43, 145-146
 Age at marriage, females, 111-118, 131-133, 143, 154, 170-171; males, 116-118, 131-132, 145, 170-171; earliest, 112, 116; in brother-sister marriage, 131-133
 Age difference of spouses, 118-121; in brother-sister marriage, 131-132
 Age distribution, females, 75-76, 81-90; males, 91-92, 99-103; both sexes, 103-109, 155; and stable populations, 78-81; of fertility, 135-145, 148-151
 Ages in census returns, 20, 39; accuracy, 28-29, 42-47; exaggeration, 43-44, 46-47, 107-108, 142, 164; heaping and shoving, 44-47, 81, 107; rounding, 20, 44-47
 Agriculture, 48, 72, 169; *see also* Grain prices
 Aleppo (18th c.), 55
 Alexandria (Roman), 28, 168; and census, 10, 12; no census returns, 41, 48, 56; population, 53-54, 57
Anachoresis (tax flight), 3, 38, 58, 157, 166-167
 Antinoopolis, 21, 56, 168
 Antonine plague, 50, 56, 103, 169, 173-178
Apatores (illegitimate children), 42, 59, 112, 144-145, 155-156; and fertility control, 139, 149-150; *see also* Legitimate birth
Argos (without trade), at Memphis, 22, 48
 Arsinoe, census returns, 16-17, 21, 24, 41, 56, 63, 93, 168; population, 55
 Arsinoite nome, census returns, 6-8, 21, 24-25, 40, 48, 50-51; and brother-sister marriage, 129-130
Astoi (citizens of Greek cities), 168
Atechnos (without craft), 24, 48, 70
 Augustus (emperor), and census, 2-5, 27, 29; marriage legislation, 12, 111
 Bangladesh, 45, 96, 136, 141, 143
 Birth control, *see* Abortion, Contraception, Family limitation, Fertility
 Birth rate, females, 89-90, 141-143, 148, 154 (*see also* Fertility); males, 102; both sexes, 105
 Birth registers, 27
 Birth spacing, 43, 150; of first birth, 112, 132; *see also* Fertility
 Brass-Gompertz model (fertility), 142, 145
 Breastfeeding, 148-151, 154-155
 Brother-sister marriage, 49-50, 127-134, 153, 156, 170; and divorce, 124, 128, 133-134; and Roman law, 127; origins, 129-130; purposes, 130-133
 Cairo (18th c.), 54
 Cambridge typology of households, 58-60, 170-173
 Caracalla (Roman emperor), 48
 Celibacy, female, 114-116
 Census, origins, 1-5; end, 9-11; fourteen-year cycle, 2, 27; process, 11-20; purpose, 26-30; completeness, 27, 40-42, 47-49, 58; *see also* Census returns, Poll tax
 Census declarants, 11-14, 22; signatures, 21, 25
 Census returns, xv-xvi, 1-2; addressees, 19, 21; date of filing, 6, 16-18, 44; place of filing, 14-16; penalties for not filing or falsifying, 14, 25, 29;

- Census returns (continued)
 drafting, 18-19; form, 20-26; entries, 22-25; subscriptions to, 25-26; official handling and checking, 19-20, 27-28, 97; government uses, 26-30, 57, 60; personal uses, 20, 28-30, 43, 47; geographic distribution, 6-8, 26, 40-41, 50, 56-57; chronological distribution, 7-9, 26, 41, 50, 174; social bias, 47-49; accuracy, 28-29, 42-47, 107-110; entry into data bases, 38-40; and households, 57-58; and Roman social history, 50-52, 109-110; *see also* Census, Poll tax
- Central America, 46
- Children, in returns, 12, 24; sex preference for, 123, 151-153; Roman attitudes to, 151-152; of broken marriages, 124-126; *see also* Fertility
- China, xvii, 46, 51, 88, 96, 106, 140, 150, 153, 170, 177-178; ancient, 174
- Claudius Firmus (*corrector*), 10
- Close-kin marriage, *see* Brother-sister marriage
- Clothmaking, 24, 48, 72-74
- Coale indices of fertility, 115-116, 144-145, 150
- Coale-Demeny models, *see* Life tables
- Coale-McNeill model (female first marriage), 114-115
- Coale-Trussell model (fertility), 114-115, 139-145, 150-151, 170
- Cohort, *see* Mortality
- Concubinage, 112, 121, 156
- Conjugal (nuclear) families, 59-62, 64-66, 171; in returns, 25
- Constitutio Antoniniana, 10-13, 48, 127
- Contraception, 139, 148-151
- Data bases, 38-40
- Dalmatia (19th c.), 116
- Death, registers, 27; of a spouse, 61, 114, 122-123, 132
- Declarants, *see* Census declarants
- Death rate, 35, 78; females, 89-90; males, 102; both sexes, 105
- Demography, as discipline, xvi-xvii, 31-32, 178; and models, 32-36, 51
- Dependency Ratio, females, 84, 90; males, 102; both sexes, 105
- Diodorus Siculus (historian), 53-54, 56
- Divorce, 59, 61, 111, 114-115, 118, 122-127, 132, 154-155; and brother-sister marriage, 124, 128, 133-134
- Domicile, 14-16, 22-23; *see also* *Idia*
- Doubling time of stable population, 80
- Dowry, and brother-sister marriage, 130-133; and exposure, 152-153
- Druze of Isfiya (20th c.), 131
- e(x)*, *see* Life expectancy
- Edict of prefect, proclaiming census, 11, 14-15, 23, 26
- Egypt (Hellenistic), 114, 130-131
- Egypt (Roman), population, 53-57; economy, 48, 72-74, 169, 173; household structure, 58-67; life expectancy, 103-110
- Egypt (19th and 20th c.), xvii, 41, 44, 54, 56, 88, 94, 107, 111, 115-116, 118, 139, 141, 145, 160, 173
- Egyptians, native, 29, 111, 155; and fertility, 43, 142, 152; and brother-sister marriage, 129-131
- Elderly, 104, 108; age exaggeration, 43, 46-47, 107-109; care for, 60, 62
- Endogamy, 127, 130; *see also* Brother-sister marriage
- England (early mod.), 1136, 177
- Enoikos*, *see* Lodger
- Epikrisis* (registration), 4-5, 9-10, 28
- Estonia, Swedes in, 140
- Europe (early mod.), 37-38, 141, 143, 148, 151, 154, 160; *see also* Mediterranean populations, and under individual nations
- Exposure, 103, 108, 151-153, 159, 164, 168, 170
- Extended families, 59-60, 62
- Families, and households, 59; and household structure, 58-66; size of, 67-70; dislocation within, 125; of lodgers, 65-66; of slaves, 156-159; *see also* Households
- Family limitation, 139-144, 147-151, 154-155
- Famine, 173-174
- Fecundity, 140-141
- Females, underregistration, 41-42, 81-82, 98, 152-153, 161; age distribution, 47, 75-76, 81-90; normal mortality, 99, 106-107; life expectancy, 87-90; age at marriage, 111-118, 140; age gap from husbands, 118-121, 131-133; proportion married, 115-116, 144-145, 171; remarriage, 115, 126-127, 153-155; migration, 161, 165; literacy, 46; *see also* Fertility

- Fertility, normal patterns, 135-136; maximum, 37, 142-144; age distribution and level, 135-151; model rates, 113-115, 139-145, 150-151, 170; Coale indices, 115-116, 144-145, 150; earliest, 32, 42-43, 112, 135; marital, 139, 144-145; non-marital, *see Apatores*, slaves; "natural," 140-141, 145, 148-151; controls on, 127, 135, 147-155, 170; in brother-sister marriage, 128; of slaves, 139, 156-159; and mortality, 37-38, 110, 138, 145, 154-155, 170, 177-178; transition, 148-149, 151, 154
- Florence and Tuscany (15th c.), 45, 69-70, 117-118, 141, 154, 171; household structure, 59-60, 68; migration, 160-161, 165, 167
- France (early mod.), 34, 88, 138-139, 148, 154, 160
- Free persons, sex ratio, 93-94, 162
- Freed persons, *see* Manumission
- Frèreche*, 59, 64-66, 120-122, 134, 156
- Gastroenteritis, 33
- Germany (early mod.), 37
- Gnomon of the Idios Logos*, 10, 29, 127
- Gordian III (Roman emperor), 28-29
- Grain, dole, 10; prices, 173-174, 177-178
- Greece, classical, xvii, 64, 116, 130, 152; early modern, 116, 145
- Greeks in Egypt, 28, 111, 152, 168; and brother-sister marriage, 129-131
- Gross Reproduction Rate (GRR), 37, 138-139
- Growth rate, in Roman Egypt, 56, 81-90, 100, 103; in pre-transition societies, 37-38, 86; and stable populations, 79-81; and mortality crises, 89, 175-178; and doubling time, 80; and close-kin marriage, 133
- Hearth, *see* Household, *Idia*
- Herakleopolis, 55-56
- Hermopolis, population, 54-55
- Hermopolite nome, 26
- Homeostasis, 38, 148; *see also* Stable populations
- Households (*oikiai*), as census unit, 12-14, 57-59; form, 53, 58-67, 171-172; formation, 65, 171-172; size, 67-69; life cycle, 64-65, 134, 171-172; and fertility, 146-147
- Houses, and households, 12-14, 48, 57-58, 67; prices, 69
- Hutterites (20th c.), birth rates, 143-145, 147, 154
- Idia* (fiscal domicile), 15, 167-168
- Idiotai* (private persons), 24, 48, 70
- Illegitimate children, *see Apatores*
- Incest, 128-129; *see also* Brother-sister marriage
- Index, of similarity of age structures (Weiss), 85-86; of proportion married, 115-116, 144-145; *see also* Coale's indices, Myers' Blended Index, Whipple's Index
- India (20th c.), xvii, 81, 88, 92, 96, 104, 106, 154, 160, 165
- Infant mortality, 32-36, 39, 87, 106, 151-153, 170; in census returns, 44
