quantitative genetic theory, 24–36, 159–60

Cambridge University Press

978-0-521-03424-1 - Nature and Nurture During Infancy and Early Childhood

Robert Plomin, John C. DeFries and David W. Fulker

Index

[More information](#)*Subject index*

345

- reaction time, 12
 reactivity, *see* personality
 reading, 51–2
 reliability, 21
 religiosity, 51, 61

 selective placement, 36, 39, 41, 47–9, 50–1,
 172; *see also* model fitting
 self-control, 11
 self-esteem, 11
 Sequenced Inventory of Communication
 Development (SICD), 12, 54, 75–6,
 120–1, 133–5, 151, 181, 208, 210–13,
 234–5, 261, 287, 294, 299, 304–8
 shared environment, *see* nonshared
 environment
 shyness, 192–5; *see also* personality
 siblings, 43
 adoption design, 114–15, 275–80, 283–8
 correlations, 114–42, 160–2
 model fitting, 160–2, 179–84, 209–13
 simplex pattern of longitudinal correlations,
 93–4
 Sixteen Personality Factor Questionnaire
 (16PF), *see* personality
 sleep problems, *see* behavioral problems
 smoking, 51
 sociability, *see* personality
 spatial ability, *see* cognitive abilities
 specific cognitive abilities, *see* cognitive
 abilities

 stability, 93–109, 136–54, 243–5
 Stanford–Binet IQ test, 12, 52, 67, 69, 85–
 6, 88–90, 117–21, 127, 133, 163–5, 233–
 5, 260–1, 285, 300, 305, 309, 314

 talents, 51
 television, 51, 127
 temperament, *see* personality
 transitions, 77–156
 trend correlation, 138
 twin correlations, 114–42
 twin design, 114, 272–4, 283–5

 variance, developmental change in, 79–84
 verbal ability, *see* cognitive abilities
 videotape observations, 54, 56, 58, 86, 105,
 280
 vocabulary, *see* cognitive abilities

 Wechsler Adult Intelligence Scale (WAIS),
 221
 Wechsler Intelligence Scale for Children
 (WISC), 221
 Wechsler Preschool and Primary Scale of
 Intelligence, 117
 weight, 12, 57, 82–3, 95–7, 115–17, 131–2,
 139, 145–7, 151, 181, 259
 within-family environment, *see* nonshared
 environment
