INDEX

- Aberdeen Royal Infirmary, 170, 264
- aetiology of disease, 4-5, 18, 32, 41, 44, 56-7, 68, 107, 133, 146-9, 155, 212, 231, 277-80
- ancestral versus *de novo* origins, 18, 39, 86-90, 128, 137, 172
- laboratory demonstrations, 210-2, 279-80
- See also* individual diseases
- Albert Veterinary College, London, 46, 48
- analogues for germ infection
- invasion and defence, 6-7, 186, 189, 219, 228, 232, 281, 286
- seed and soil, 6-7, 15, 79-80, 98, 106-7, 119, 130, 143, 147, 151, 155, 161, 163-4, 167-8, 175, 186-7, 193, 206, 217, 228, 263, 275, 283-5, 288
- spark and fuel, 34-35, 57, 119, 249, 268
- ancestral versus *de novo* origin of diseases, 3, 39, 86-90, 128, 137, 234, 266-7, 284
- Andrewes, Frederick, 216, 267
- Anglo-Indian preventive medicine, 116-7
- animal diseases and trade policy, 47-8
- animal experimentation. *See* vivisection
- anthrax, 43, 61, 63-5, 69, 125, 211, 279-80
- bacillus, 150, 154, 160-1, 176, 244
- illustrations of, 141
- Woolsorters' disease, 63
- anticholera vaccine, 244, 252-3
- Anti-Compulsory Vaccination League, 118
- anticontagionism, 18, 39-41, 128
- antiphlogistic (anti-inflammatory) treatments, 155
- antisepsis
- medical uses, 84, 155, 184
- pre-Listerian, 76
- research on germs and sepsis, 151, 156-60, 187
- wound dressings, 82, 155, 184
- See also* antiseptic surgery
- antiseptic spray, 95, 103-6, 157-8, 164, 168-70, 183, 189-90
- antiseptic surgery, 17, 76-101, 152-70
- and spontaneous generation, 156
- and veterinarians, 67
- changing character, 164-70, 182-3
- debate at the Clinical Society of London (1875), 105
- historiography, 73-4, 83, 86-7, 283
- non-Listerian, 100, 105-7
- opposition to, 86-7, 90-6, 105, 161-4, 166, 182-3
- theory of, 164-70
- See also* Listerism
- antitoxic sera, 190, 278, 289; *see also* diphtheria
- antitoxin
- antityphoid inoculation. *See* typhoid fever
- antivaccination, 118, 124, 240
- and antivivisection, 27, 175, 205, 259-60
- and bacterial research, 244-6
- Army Medical College, Netley, 269
- Army Medical Department, 129
- aseptic surgery, 17, 151, 186-92
- Association for the Advancement of Medicine by Research, 175
- attenuation. *See* bacteria
- Babes, Victor, 123
- bacillus coli communis, 265
- bacteria, 3, 6, 36, 79, 93, 129, 154, 168, 181, 212, 234, 268, 279-80
- agglutination reaction, 268
- and micrococci, 159-60, 166, 173, 178, 191-2
- as disease-germs, 154, 206, 216, 220
- as parasites, 117, 173, 216
- as saprophytes, 124, 130, 154-5, 173-4; *see also* septic infection
- attenuation of, 172-4, 210-2, 219
- bacteriomania, 175, 250
- Schistomyces*, 139, 286
- the life history of Monads, 97-8
- bacteriological laboratories, 212-6, 231-2
- diagnostic work, 204, 212-3, 215-7, 237,
