## Contents

|   | <i>Page</i> |
|---|-------------|
| <i>List of contributors</i>   | ix          |
| <i>Preface</i>  | xi          |
| <br>  |             |
| <b>Part one: General concepts</b>   |             |
| 1 Neural networks and psychopathology: an introduction<br><i>Dan J. Stein and Jacques Ludik</i>   | 3           |
| 2 The history of neural network research in psychopathology<br><i>Manfred Spitzer</i>   | 14          |
| 3 Neural network models in psychiatric diagnosis and symptom recognition<br><i>Eric Y.H. Chen and German E. Berrios</i>                                 | 34          |
| 4 Neural networks and psychopharmacology<br><i>S.B.G. Park</i>  | 57          |
| 5 A connectionist view of psychotherapy<br><i>Franz Caspar</i>  | 88          |
| 6 Modulatory mechanisms in mental disorders<br><i>David Hestenes</i>  | 132         |
| <br>  |             |
| <b>Part two: Clinical disorders</b>   |             |
| 7 The nature of delusions: a hierarchical neural network approach<br><i>Eric Y.H. Chen and German E. Berrios</i>  | 167         |
| 8 ‘Produced by either God or Satan’: neural network approaches to delusional thinking<br><i>Sophia Vinogradov, John H. Poole and Jason Willis-Shore</i> | 189         |
|   | vii         |

Table of Contents

[More information](#)

| viii | <i>Contents</i>  |     |
|------|--|-----|
| 9    | Neural network modelling of cognitive disinhibition and neurotransmitter dysfunction in obsessive–compulsive disorder<br><i>Jacques Ludik and Dan J. Stein</i> | 231 |
| 10   | The fables of Lucy R.: association and dissociation in neural networks<br><i>Dan Lloyd</i>   | 248 |
| 11   | Neural network analysis of learning in autism<br><i>Ira L. Cohen</i>   | 274 |
| 12   | Are there common neural mechanisms for learning, epilepsy, and Alzheimer’s disease?<br><i>Gene V. Wallenstein and Michael E. Hasselmo</i>                      | 316 |
|      | <b>Epilogue</b>  |     |
|      | The patient in the machine: challenges for neurocomputing<br><i>David V. Forrest</i>   | 347 |
|      | <i>Index</i>   | 363 |
