## INDEX

---

- abstraction, 41, 44–6, 48
- Abu-Lughod, Janet, 81
- acquired gestalts, 42, 54, 138–9, 198, 242, 329; *see also* gestalts
- activity patterns, 92, 222, 229, 285, 343
- Adams, Robert M., 10
- agglomerative programs, 206, 281, 329; *see also* lumping
- ambiguity, 296–304; conceptual, 169, 300–3; in Linnean classification, 58; in programmatic statements, 65; in sorting, 77; in type recognition, 45–6; in typologies, 76, 83; of purpose, 166, 301–3; of terminology, 16–17, 25, 88, 224–5, 296–300, 303–4
- American Indians, xx, 6, 267, 301; *see also* Anasazi
- American Northeast, 220, 229, 231, 303
- American Southwest: archaeological record, 231; architectural typologies in, 9; classification methods in, 103–4, 110, 220, 231, 303; “culture” groups in, 164, 196, 225, 231, 267–8; grave types in, 9; pottery in, 29, 31, 51, 196, 231, 301; type nomenclature in, 31; WYA excavations in, 51, 101
- analogical reasoning, 307–8
- analytical purposes, 160–3, 329
- Anasazi, 164, 196, 225, 231, 267
- ancillary purpose, 5, 21, 163–4, 166, 167, 215, 232, 251, 302, 330
- ancillary typologies, 164, 215–16, 219, 220
- Andean culture history, 219
- animal ethology, *see* ethology
- anthropology, 83–8, 308–9; classification in, 4–8, 70, 266–70; definition of, 46; paradigms in, 308–9; philosophy in, 13, 321; theory in, 6–8, 81–2, 83–8, 268–9, 274, 308–9, 311–12, 321; *see also* ethnology
- anti-representationalists, 148
- apriorism, 13, 334
- Archaeological Constructs*, 276, 289
- architectural classifications, xx, 9, 162, 219, 227
- Arikara Indian pottery, 162, 220
- arrowhead typologies, *see* projectile point typologies
- art historians, 160–1, 219
- artificial classification, 20, 67–8, 253–4, 278–80, 331; artificial types, 15, 66–8, 215, 279–80, 331; vs. natural classification, 25, 67–8, 93, 217, 239, 265, 278–9, 287–8, 304
- artificial intelligence, 4, 42
- artificial types, *see* artificial classification
- associative classifications, 179, 331
- Aswan pottery, 117, 121, 130, 139; *see also* Egyptian pottery
- attribute clustering, 177–9, 331; and type definition, 185, 236, 241, 288; meaning of, 178; paradigmatic, 95, 287, 354; significance of, 22, 52, 67, 177, 185, 191, 230, 291–2; vs. object clustering, 25, 60, 63, 182, 192, 254, 265, 285–6, 304, 353
- attribute differentiation, 173–5
- attribute selection, 160–1, 168, 174, 190–1, 332
- attribute-space, 256
- attribution, *see* type attribution
- automatic classification, xvi, 274, 294
- Bacon, Francis, 314, 320
- baseball umpire, 200–1
- basic purposes, 158–63, 166, 167, 332

## INDEX

- basic typologies, 78–9, 215–17, 220, 332; formulation of, 274, 284; vs. instrumental typologies, 78–9, 80, 211, 219, 282, 287–8  
 “battleship graphs”, 209, 211  
 bead typologies, 157, 159, 218, 227  
 Benedict, Ruth, 269  
 Bennett, John W., 269  
 Biblical archaeology, 232  
 bimodality, 71, 332; *see also* modality  
 binary division, 174, 206, 304  
 Binford, Lewis, 9–10, 271–2  
 biological classification, 122, 152, 154, 206, 271, 279, 286; *see also* species  
 biological evolution, 319  
 biological sciences, 186, 202, 257, 294, 300; *see also* biologists, biology  
 biological species, *see* species  
 biologists, 46, 64, 147, 187, 204, 205, 275; *see also* biology  
 biology, 4, 7, 13, 69, 146, 195, 203, 280, 281, 300; *see also* biologists  
 Boas, Franz, 309  
 Boasian ethnology, 268  
 Bohr, Nils, 8  
 boundaries, 71–2, 85–8, 279–80, 366; of classes, 46, 85–8; of types, 20, 47, 68, 71–2, 77, 143–4, 187, 195, 239–40, 255, 277, 279–80, 299, 300, 366; of typologies, 45, 47, 65, 76, 332; *see also* boundedness  
 boundedness, 49, 76, 83, 273, 279, 332; *see also* boundaries  
 Brew, J. O., 167, 270–1, 296, 305  
 Bridgman, Percy, 323  
 Bureau of American Ethnology, 266  
 Carnap, Rudolf, xxii, 11, 12, 316, 320, 322, 323  
 causation, xxii, 35, 74, 177, 191, 272, 289, 307  
 centers, 143–4, 244, 255, 332; *see also* central tendencies, modalities  
 central tendencies, 255, 332–3; and type definition, 20, 46, 71–2, 77–8, 240, 255, 299; lack of, 71; of ideal types, 240, 299; vs. boundaries, 20, 195, 240; *see also* centers, modalities  
 ceramic index clusters, 134, 136–7, 235, 345  
*Ceramic Industries of Medieval Nubia*, 109  
 ceramic recording procedures, 128, 129–30, 131–5, 139–41  
 ceramologists, 101, 140, 330, 333  
 chance, 35, 53, 79, 177–8, 191; *see also* randomness, nonrandomness  
 Chang, K.-C., 8, 270  
 chi-square test, 292  
 Childe, V. Gordon, 178  
 Christenson, Andres, 8  
 chronological classifications, 23, 36, 161, 162–3, 216, 220–1, 333  
 chronological seriation, 9, 23, 59, 101, 137, 208–12, 219, 225, 333  
 church architecture, xx, 227  
 Clarke, David L., 70, 272, 275  
 classes of variables, 175–6, 333  
 classificatory era, *see* classificatory paradigm  
 classificatory paradigm, 266–8, 310, 312, 333  
 classificatory ranking, *see* taxonomic ranking  
 closed typologies, 149, 159, 226–8, 234, 334  
 cluster analysis, 33, 149, 206–7, 303, 334; *see also* agglomerative programs, computerized classifications, Numerical Taxonomy  
 cognitive psychology, xix, 7, 57, 86; *see also* psychology  
 cognitive science, 39; *see also* cognitive psychology  
 collections, 52–3, 57, 61, 72, 160, 209–10, 286, 334  
 colors, *see* pottery colors  
 Colton, Harold S., 60, 101, 301  
 comparative classifications, 159–60  
 comparative purposes, 21, 48, 81, 89, 158–60, 197, 202, 218, 279, 302, 334  
 comprehensiveness, 76; of recording procedures, 136–7; of sorting activity, 197; of taxonomies, 203; of theories, 314–20; of type descriptions, 171, 187–8; of typologies, 47, 65, 70, 76, 80, 83, 91–2, 153, 226  
 computer programs, 276, 286, 287, 293, 303; *see also* cluster analysis, computerized classifications, Numerical Taxonomy  
 computer technology, 273  
 computerized classifications, xvii–xviii, xix, 206–9, 212–13, 230, 271–2, 290, 293–4,

## INDEX

- computerized classifications (*cont.*)  
 298, 339; closed typologies, xviii, 227;  
 clustering programs, 283–4, 302–3, 334;  
 differentiation programs, 23, 55, 92, 278;  
 in French archaeology, 276; meaningless  
 types, 42, 270, 272, 286, 294, 302–3,  
 311; “objectivity”, 171, 188, 230, 272,  
 294, 303; seriation programs, 213–14;  
 taxonomic programs, 206–7, 364;  
 unrealized types, 33; *see also*  
 agglomerative programs, cluster analysis,  
 divisive programs, Numerical Taxonomy  
 computers, xvii, 124, 210, 212, 274, 291,  
 293–6, 301; *see also* computer programs,  
 computer technology, computerized  
 classifications  
 conceptual apriorism, 334  
 conceptual independence, 315–17  
 conceptual instrumentalism, 21, 143–54,  
 335  
 conceptual problems, xvi, 16–17, 25, 277,  
 296–304  
 conceptual systems, 5, 20, 29, 75–90, 91–2  
 conceptual vocabulary, 16–17, 25, 296  
 conditional probabilities, 248, 335  
 conditional proportions, 247  
 conditional uncertainty, 248, 335  
 configurational/functional era, *see*  
*configurational/functional paradigm*  
 configurational/functional paradigm,  
 268–71, 282, 301, 310–12, 335  
 configurationism, 267, 268–9, 270, 282–3,  
 309, 311, 335; *see also* configurationist  
 paradigm  
 configurationist era in ethnology, *see*  
*configurationist paradigm*  
 configurationist paradigm, 167, 223, 309  
 congeries, 44, 45, 54, 335  
 consistency among sorters, *see inter-*  
*subjective agreement*  
 consistency of definition, 78, 335  
 container spaces, 153  
 contextual attributes, 22, 58, 161, 176,  
 178–9, 180, 191–2, 218, 241; *see also*  
*contextual variables*  
 contextual evidence, 199–200; *see also*  
*contextual features, contextual variables,*  
*extrinsic evidence*  
 contextual features, 170, 176, 192, 220; *see*  
*also contextual evidence, contextual*  
*variables*
- contextual variables, 119, 161, 176, 335–6  
 continuum of variation, *see intergradation*  
 contypicality, 151–2, 336  
 Copernican theory, 322–4  
 Copernicus, 321, 322  
 Cormack, R. M., 71, 94, 287, 295  
 cost-effectiveness, xvii, xx, 23–4, 138, 227,  
 233–4, 236–7, 250, 260  
 Cowgill, George, xxi  
 criteria of identity, 45; concrete properties,  
 34; external, 45; in “induced” typologies,  
 290; in practical typologies, 242, 297; in  
 taxonomies, 204, 219; intrinsic, 45, 204,  
 220–1, 241; mental images of, 32; of  
 “cultures”, 40; or provisional types, 168,  
 185–6, 240; qualitative, 81; related to  
 purposes, 92; revision of, 227; role of  
 attributes as, 172, 178, 241; role of  
 statistics as, 292; unknown, 36;  
 variability of, 65–6, 70, 152, 179; *see also*  
*diagnostic attributes*  
 criteria of meaning, 45–6; in “deduced”  
 typologies, 290; in practical typologies,  
 297; in selection of types, 186, 240; in  
 taxonomies, 204; known associations,  
 34–5; related to purposes, 45–6; role of  
 extrinsic attributes as, 178, 241; role of  
 variables as, 174; *see also* meaning  
 criteria of typehood, 64–6, 71–2, 124,  
 143–4, 151–2, 179, 207, 243, 292, 312;  
*see also* dimensions of typehood, elements  
 of typehood  
 “cultural” categories, 270, 284  
 “cultural” classifications, 23, 214, 224–5,  
 277, 336; contrast with artifact  
 classifications, 203, 211, 212, 214,  
 224–5, 271, 276, 297–8, 299–300;  
 formulation of, 224, 277, 297–8; genetic  
 component in, 215, 221, 225  
 cultural ecology, 309, 336  
 “cultural” sequences, 225  
 “cultures”, 162, 214, 224, 265, 336;  
 defined, 224, 336; identification of, 40,  
 220–1, 310; reconstruction of, 215, 216;  
 temporal sequences of, 208, 216, 225; *see*  
*also* “cultural” classifications
- Daniel, Glyn, 85  
 Darwin, Charles, 58  
 dating procedures, 74, 79, 89, 99, 131,  
 135–42, 180, 209–10, 234–5; *see also*

## INDEX

- frequency seriation, radiocarbon dating, sequence dating
- dating purposes, 162–4, 215, 220–1; attributes useful for, 14, 111, 139; pottery used for, 79, 128–9, 131, 136, 163–4, 233–4, 235; selection of variables for, 189–90; type frequencies used for, 209–12; types used for, 40, 58, 69, 74, 100, 122, 131, 204, 265, 279; typologies made for, 38, 100–3, 129, 163–4, 166–7, 215, 220–1, 235, 301
- de Saussure, Ferdinand, 50
- decision-making, 188–93; in attribute selection, 173–4, 190–1; in excavation, 130, 261; in sorting, 22–3, 56, 193, 197–201, 230, 238, 240; in type differentiation, 71–2, 77; in type formulation, 22, 275; in type selection, 69, 93, 191–3; in variable selection, 171–2, 189–90; *see also* judgment, type selection
- decision theory, xxii
- decoration, *see* pottery decoration
- “deduced” typologies, 180, 289–90
- deduction, 12, 60–1, 67, 281–2, 290, 304, 307, 337; *see also* deductive classifications
- deductive classifications, 66, 182, 337
- deductive hypotheses, 272
- Deetz, James F., 162, 220, 279
- defining variables, 107; *see also* significant variables
- definiteness, 143–6
- definition, *see* type definition
- degrees of membership, 73; *see also* fuzzy sets
- degrees of relationship, 80
- dendrochronology, 180
- dendrogram, 206, 207, 337
- denotata of identity, *see* criteria of identity
- Descartes, René, 13, 322
- description, *see* type description
- descriptive attributes, 72, 182, 186–8, 286, 337
- descriptive labels, 31, 44, 59, 196, 222
- descriptive particularism, 309
- descriptive purposes, 21, 158–9, 160, 227, 253–4, 285, 302, 337
- descriptive type concepts, 286, 337
- descriptive typologies, 159, 160
- descriptive variables, 228, 338
- designation, *see* type designation
- determinants of typehood, *see* criteria of typehood
- development of classificatory systems, 61, 149, 159, 192, 214, 239
- diagnostic attribute clusters, 177–9, 338; basis of type definition, 30, 63, 177, 185; basis of type identity, 37; identification of, 236; meaningfulness of, 178–9; statistical significance of, 177, 212; variability of association in, 177–8; *see also* diagnostic attributes, criteria of identity
- diagnostic attributes, 147, 186–8, 195–6, 338; basis of type definition, 30, 63, 174; basis of type identification, 252; identification of, 195, 236; in ideal type specimens, 72; in individual specimens, 195–6; informational value of, 244, 252; kinds of, 22; vs. descriptive attributes, 147, 182, 186–8; *see also* criteria of identity, diagnostic attribute clusters
- diagnostic variables, 228
- dialectics, 17, 19, 50–62, 309, 333; between aspects of typehood, 50, 60–1, 239, 273, 276, 286, 312; between learning and communication, 61–2; method and theory, xxiii, 286, 303, 306, 309, 313; of scientific paradigms, xxii, xxiii; of type formulation, 19, 50–62; *see also* feedback
- dichotomies, 285, 287–90, 296, 304
- differentiation, *see* type differentiation
- dimensions of typehood, xvi, 18–19, 29–38, 73, 239, 338; *see also* typehood
- discovery of types, *see* type discovery
- divisive programs, 206, 281, 338; *see also* splitting
- domains of variability, 79, 104–5, 169, 176, 178, 188, 254, 256, 338–9
- Dumont, Louis, 83–4
- Duncan, T., 254
- Dunnell, Robert, xvii, xviii, 266, 273, 287, 298, 311, 312
- Durkheim, Emile, 81–2, 85, 86, 308
- Durkheimian sociology, 308
- Eastern North America, *see* American Northeast
- eclecticism, xvii, xviii, 6–7
- economic studies, 103, 136, 139; *see also* economics

- Tractatus Logico-Philosophicus*, 316  
 tradition, 232, 237  
 transmitted information, 248, 253, 258, 260, 261, 365  
 type attribution, 64, 194, 366; *see also* type identification, typing  
 type definitions, 15, 30–1, 63–6, 78, 143–6, 184–5, 366; and discovery of types, 149, 152; and type naming, 124; consistency of, 78; defined, 63; dimension of typehood, 30–1, 63, 184; impossibility of formulating, 63, 64–6, 70, 184–5; involving boundaries, 71–2, 299; involving modalities, 71–2, 77; modification of, 57–9, 65, 184, 206, 227, 242, 286; purposes of, 186–7, 188; role of attributes in, 168, 177, 185, 187, 194, 218, 237, 252, 286, 289–90; shifting criteria of, 179, 243; utility of, 15, 72, 144–6, 151–2, 324; *see also* explicit definitions, provisional type definitions  
 type descriptions, 22, 64–6, 110–11, 119–20, 186–8, 366–7; and information theory, 251–3; components of, 58, 72, 109, 110–11, 119–20, 128, 171, 175–6, 178, 186, 188, 237; dimension of typehood, 18, 29, 30, 33; formulation of, 33, 37, 56, 100, 186–8; idealization of, 195; modification of, 53, 57, 60, 102, 106, 108; overdetermination in, 56, 144, 145, 171, 187, 196, 197, 241, 297; purposes of, 144–5, 186–8, 241; realism in, 150–2; relationship to type definitions, 63, 64–6, 144–5, 186, 252; role in sorting, 138, 197–8, 227, 241–2; role of attributes in, 60, 77, 250; selectivity in, 169; utility of, 22, 144–5  
 type designation, 185–6, 191–3, 367; decision-making in, 64–5, 102, 188, 192–3; defined, 22, 186; of emic types, 223; role of attributes in, 88, 102, 104, 168, 191, 289; role of purposes in, 178–9, 191; role of statistics in, 177, 191; role of variables in, 92–3, 181, 191; *see also* type formulation  
 type differentiation, 54–5, 92, 367; bases of, 241; decision-making in, 192–3; defined, 367; in Medieval Nubian Pottery Typology, 104; role of centers and boundaries in, 143; stepwise, 55, 63–4, 65–6, 70, 162; *see also* type formulation  
 type discovery, 33, 67–8, 149, 182, 239, 338, 367  
 type formulation, 19, 22, 49–62, 182–4, 240–1, 367; decision-making in, 200; defined, 19, 367; dialectics of, 19, 59–60; modification in, 57; of provisional types, 185–6, 240, 290; practical considerations in, 22; principles of, 240–1; processes in, 49–62, 73–4, 182–4, 240–1; role of attributes in, 177, 182–3, 185, 188, 195, 199, 241; role of differentiation in, 54–5; role of foreknowledge in, 51–2, 184; role of gestalts in, 53–4; role of purposes in, 52, 168, 204, 277; role of quantification in, 88–9, 212, 292; role of variables in, 189–90, 228; *see also* type definition, type differentiation  
 type frequency, 367  
 type identification, 146, 367; *see also* type attribution, typing  
 type identity, 30, 33, 37, 147, 367; *see also* identity  
 type invention, 33, 67–8, 183, 239, 349, 367; *see also* type formulation  
 type labels, 31, 196, 367  
 type meanings, 35–6, 38, 148, 368; based on experience, 148; contrasted with individual meanings, 38, 301; defined, 35–6, 368; determined by distributions, 276; learning of, 59–60; modification of, 58–9; part of type concept, 30, 38; property of types, 35–6, 168, 192, 239, 281–2; relation to purposes, 36, 88, 183, 240; *see also* emic significance, meaning, type relevance  
 type names, 31–2, 124–6, 368  
 type norms, 71–2, 77–8, 92, 187–8, 193, 368  
 type properties, *see* properties of types  
 type recognition, 43, 360, 368; *see also* typing  
 type relevance, 36, 38, 79, 360; *see also* relevance  
 type representation, 30–1, 33–4, 43–4, 51, 55–6, 64, 276, 368; *see also* type description  
 type selection, 168, 185–6, 215, 240, 292  
 typehood, xvi, 27–38, 41–8, 93–4, 179,
