INDEX

- age cross-classification of factional alignment by, 145, 147
- agricultural credit cooperatives, *see* cooperative credit societies
- agricultural machinery, value of amount owned (economic background variable): Akola, 155; Aurangabad, 124-5; Poona, 97-8; Ratnagiri, 70, 73, 74, 76, 77, 178; all districts, 165
- agricultural prosperity (factor cluster), (Akola) 171, 176, (Aurangabad) 123, (Ratnagiri) 178; component indicators of, 164n, 219; and success of cooperatives as political instruments, 186
- agriculture, (Akola) 129, 132, (Aurangabad) 104-6, (Poona) 80, (Ratnagiri) 65; percentage of output of, sold through cooperatives, 35; state expenditure on, 44; *see also* cash crops
- Agriculture, Maharashtra Department of, 111
- Akola, district selected for study (Vidarbha socio-historical area), 5, 129-31, 132; map, 130; cash crops in, 29, 129, 138-41, 155, 159, 176, 179; cooperatives in, 129, 140, 141-2, 181; cross-classification of factional alignment in, 144-8; discriminant analysis of groups of variables for Z.P. Councillors in, 53, 54, 55, 56, 142-57, 229-31; irrigated landholding in, 155; landholding pattern in, 42, 155, 166; level of political ambition in, 143; Loyalist leadership in, 140; nomination; to Z.P. offices in, 133, 137, 140; power struggle in, 131-6, 169; ranking of, for each variable, 172-3; Rebel leadership and links with cooperatives in, 137, 140, 141-2; Rebel profile for, 157; special characteristics of, leading to Rebel dominance, 171, 174-7; state leaders in, 134, 136-8, 171; within-groups correlation matrices for, 241, 247, 253, 258, 267
- all districts: discriminant analysis of groups of variables for, 53-8, 161-83; group means of variables used in discriminant analysis for, 232-4; within-groups correlation matrices for, (attitudinal variables) 259, (behavioral variables) 248, (combined variables) 268-9, (economic background variables) 254, (environmental variables) 242
- ambition: for political office, 10-11, 143; in political office, 41
- animal husbandry, state expenditure on, 44
- attitudinal variables, for Councillors interviewed, 7, 48, 53, 54, 55-6, (Akola) 154, 156-7, (Aurangabad) 121, 125, (Poona) 96, 103, (Ratnagiri) 68-9, 78, (all districts) 163, 170-1; group means of, (Akola) 230-1, (Aurangabad) 227, (Poona) 224-5, (Ratnagiri) 221-2; ranking of, with other groups of variables, 182; ranking of districts by, 174; selection of, used in discriminant analysis, 217; within-groups correlation matrices for, 255-9
- Aurangabad, district selected for study (Marathwada socio-historical area), 5, 104, 179-80; map, 107; cash crops in, 29, 30, 104-5, 106, 128; cooperatives in, 124-5, 181; discriminant analysis of groups of variables for Z.P. Councillors in, 53, 54, 56, 118-27; irrigated landholding in, 125; landholding pattern in, 42, 166; level of political ambition in, 143; Loyalist leadership and links with business interests in, 108-9; nominations to Z.P. offices in, 105, 110-11, 119; percentage of electorate voting in, 176; previous political parties and present factions in, 112-18; ranking of, for each variable, 172-3; Rebel leadership and links with cooperatives in, 105, 109, 115-16, 117, 118-20; Rebel profile for, 127-8; state leaders in,

- Aurangabad (*cont.*)
 109–12, 169, 171, 226–8; within-groups correlation matrices for, 121, 122, 123, 124, 125, 240, 246, 252, 257, 265
- banks, 67, 81; *see also* Cooperative Bank
- behavioral variables, for Councillors interviewed, 7, 48, 53, 54, 55, 56, (Akola) 149–51, 153, 154, (Aurangabad) 120, (Poona) 95, 103, (Ratnagiri) 72, 75–6, 78, (all districts) 163, 169–70, 180; group means of, (Akola) 231, (Aurangabad) 228, (Poona) 225, (Ratnagiri) 222; ranking of, with other groups of variables, 182; ranking of districts by, 174; selection of, used in discriminant analysis, 216, 217; within-groups correlation matrices for, 243–8
- Birla business group, 139
- Block Development Officers, 87
- Bombay City, 24–5, 26, 29, 62, 65
- Bombay–Poona industrial complex, 22, 188
- Bombay Tenancy and Agricultural Lands Act (1958), 108n
- Brahmins, 64, 132, 158
- business, private: advances from Industrial Finance Corporation to, 25; capital available from, 65; conflicting interests of cooperatives and, 32–3, 43, 86–8, 88–93; links of Loyalist faction with, *see under* Loyalist faction; and Samyukta Maharashtra issue, 134
- canning industry, 32, 188
- canonical correlations, for different variable clusters, 197–8, (Akola) 156, (Aurangabad) 126, (Poona) 103, (Ratnagiri) 78; coefficients for, 51, 198, 199
- canonical variables, 50, 51–2, 198; coefficients for, 51, 52, 54n, 124n, (Akola) 152, (Poona) 94, (all districts) 162, 166n, 180n, 199n
- capital: access of political system to, 21; in hands of private business, 65
- cash crops: cooperative loan policy towards cultivation of, 90n; percentage of acreage under (indicator of agricultural prosperity), 164n, 219; percentage of holding under (economic background variable), 47, 186, 187–8; percentage of holding under, and size of holding, 165; *versus* food crops, controversy over 117; *see also under* district headings
- cashewnuts, cultivation of, 65
- caste: in Akola population and Akola Z.P., 158; opinions on role of, in distribution decisions (attitudinal variable), 170, 174, 236; in Ratnagiri, 61, 63–4; suggested as a determinant of factional alignment, 7, 10, 11, 14n, 156, 170, 184
- Chambers of Commerce: Indian Merchants, 65; Maharashtra, 31; Vidarbha, 139
- Chavan, Y. B.: candidate for leadership of Maharashtra Congress Party (1957), 115, 118, 133, 134, 135; later Chief Minister of Maharashtra, and Indian Home Minister, 117
- coconuts, cultivation of, 65
- Collector (official of Revenue Department), authorized to sanction agricultural loans, 111, 157n
- combined variables, 53, 54, 55, 56, (Akola) 149, 152, 154, 156, (Aurangabad) 119, 122, (Poona) 103, (Ratnagiri) 69, 75, 78, (all districts) 161, 180, 181–2; within-groups correlation matrices for, 260–9
- commerce, percentage of Maharashtra income from, 26
- commission agents, in private credit structure, 35, 36, 39, 81
- communications, political: before and after establishment of Z.P.s, 22–3
- communications potential (factor cluster), 164, 167, (Akola) 175, (Aurangabad) 122, 123, 179, (Poona) 100–1, 179, (Ratnagiri) 69, 70, 74, 78, 177; component indicators of, 164n, 219; and success of cooperatives as political instruments, 186
- Communist Party of India, 112
- community development projects, state expenditure on, 44

- cotton (*cont.*)
104; percentage of acreage under, 28–9, 30; price of, 29; processing of (cooperative), 37, 39, 138, 140, 188; *see also* textile industry
- Councillors of Z.P.s: benefits accruing to, 11; interviews with, 5, 48, 190, 200–7; sample of, interviewed, 4, 5
- credit: cooperative, *see* Cooperative Bank, cooperative credit societies; private, 35, 74 (*see also* banks, commission agents, moneylenders); from public institutions, 25
- cross-classification (degree of association between variables), 49–50, 192, 193; of other variables with factional alignment, 116, (Akola) 144–8, 150, 151, (Aurangabad) 116, 125n, 126, (all districts) 211–15
- Deccan (Desh), 5, 80, 115; irrigation in, 155; sugar in, 30
- Deshmukhs, 8n–9n; conflict between Patils and, suggested as explanation of factional alignment, 8–9
- decision-making, through political system, 17, 18, 19, 20–1; ‘economic constituency’ and, 27; opinions on caste considerations and economic interests in (attitudinal variables), 170, 174, 236
- depressed classes, in Akola population and Akola Z.P., 158
- discriminant analysis, of clusters of variables, 48, 49, 50–2, 195–9; list of variables used in, 215–17; variables not subjected to, 50, 192–3; *see also under district headings*
- discriminant function, 196, 197
- distances, from bus, railway, Panchayat Samiti, and Z.P. (environmental variables), 167, 168
- districts of Maharashtra: as political units, 3, 4; selection of four, for study (Akola, Aurangabad, Poona, and Ratnagiri), 4–5
- dye for leather, proposed cooperative factory for, 87–8
- ecological fallacy, 194n
- economic background variables, for Councillors interviewed, 7, 47, 53, 54, 56, (Akola) 153, 155, (Aurangabad) 120, (Poona) 95, 103, (Ratnagiri) 76, 78, (all districts) 163, 165; group means of, (Akola) 230, (Aurangabad) 227, (Poona) 224, (Ratnagiri) 221; ranking of, with other groups of variables, 182; ranking of districts by, 173–4; selection of, used in discriminant analysis, 216; within-groups correlation matrices for, 249–54
- economic philosophy, of mixed public and private enterprise, 10, 36, 43, 86, 185
- Economic Times*, 31
- education: low level of, in Aurangabad, 104, 179; state expenditure on, 44; and success of cooperatives as political instruments, 186
- elections: as continuing process, 19; general, Congress Party in (1967, 1971), 1; general and state (1962), 88, 142; to Zilla Parishads (1962), 1, 3, 5, 6; *see also* voting
- environmental variables, for Councillors interviewed, 7, 47, 48, 49, 53, 54, 56, (Akola) 152, 154–5, (Aurangabad) 119, 122–3, (Poona) 94, 103, (Ratnagiri) 69, 70, 71, 74, 78, (all districts) 162, 164–5, 168–9, 180–1; group means of, (Akola) 229–30, (Aurangabad) 226–7, (Poona) 223–4, (Ratnagiri) 220–1; ranking of, with other groups of variables, 182; ranking of districts by, 172; selection of, used in discriminant analysis, 215–16, 217; within-groups correlation matrices for, 237–42
- factions, 1; based on economic factors, 9, 58, 138, 184–6; conflict of individual or group interests as source of, 13–15, 22–5; conflict of systemic needs as source of, 16–20; distinct policies of, 11–12; ‘explanations’ of origin of, 7–9; *see also* Loyalist faction, Rebel faction
- factor analysis, of intercorrelations within a set of variables, 49, 123, 193–5
- factor clusters, 219
- factor loadings: matrix of, identifying optimal factors extracted, 194, 218
