## PREFACE

Chapters 1, 2, 4 and 7 are the work of R. T. Williams, except that some of chapter 7 was written by J. S. Morrison on the basis of his article 'The Greek Trireme' in the *Mariner's Mirror* 1941. The section on ship-sheds in chapter 8 was contributed by J. R. Blackman. The introduction, chapters 3, 5 and 6, the section on dockyards in chapter 8, chapters 9–12 and the general index are by J. S. Morrison. The model shown in Plate 23 was made by Sinclair Morrison. R. T. Williams made the collection of photographs from which the plates were selected.

We are greatly indebted to Captain Stephen Roskill, R.N., who read the manuscript, and made many valuable suggestions for the improvement of the text. We also wish to thank the authorities of all the institutions which were kind enough to give us permission to use their photographs in our plates. Further acknowledgements are made in the catalogues of chapters 1, 2, 4 and 7. We are also immeasurably indebted to the skill and patient care of the staff of the Cambridge University Press.

J.S.M.  
R.T.W.

I wish to record my gratitude to the Leverhulme Foundation and to Churchill College, who between them made it possible for me to take sabbatical leave during the year 1965 and thus complete my part of this book.

J.S.M.
