SYNTACTIC CHANGE

A MINIMALIST APPROACH TO GRAMMATICALIZATION

The phenomenon of grammaticalization – the historical process whereby new grammatical material is created – has attracted a great deal of attention within linguistics in recent years. However, until now no attempt has been made to provide a general account of this phenomenon in terms of a formal theory of syntax. The aim of this new and original book is to do precisely that. Using Chomsky's Minimalist Programme for linguistic theory, Roberts and Roussou show how this approach gives rise to a number of important conceptual and theoretical issues concerning the nature of functional categories and the form of parameters, as well as the relation of both of these to language change. Drawing on examples from a wide range of languages, they construct a general account of grammaticalization with implications for linguistic theory and language acquisition.

IAN ROBERTS is Professor of Linguistics at the University of Cambridge. He is the author of *Verbs and Diachronic Syntax* (1993) and *Comparative Syntax* (1996).

ANNA ROUSSOU is Assistant Professor at the Department of Philology, University of Patras, Greece. She has published extensively in major Linguistics journals.

Acknowledgements

This book represents joint work undertaken by both authors during a period of several years. Parts of this material have been presented in numerous places over the past few years: the International Conference on Historical Linguistics, Düsseldorf; Workshop on Negation, University of Wuppertal; University of Wales Linguistics Department Seminar, Gregynog; Incontro di Grammatica Generativa, Verona; Scuola Normale Superiore, Pisa; Incontro di Grammatica Generativa, Siena; GLOW, Berlin; DIGS, University of Maryland at College Park; Romance Linguistics Seminar, Oxford; Cambridge Linguistics Society; Workshop on Language Change in Generative Grammar, Thessaloniki; University of Newcastle; University of Athens, and the Historical Linguistics Seminar, University of Kobe. We would like to thank the audiences at those presentations for their questions, comments and criticisms.

We would also like to thank the following people for their help in various ways during the composition of this book: Adriana Belletti, Paola Benincà, Valentina Bianchi, Bob Borsley, Paola Crisma, Giuliana Giusti, Lila Gleitman, Maria-Teresa Guasti, S. J. Hannahs, Najib Jarad, Ed Keenan, Ans van Kemenade, Tony Kroch, Adam Ledgeway, David Lightfoot, Alessandra Lombardi, Pino Longobardi, Bettelou Los, Maria-Rita Manzini, Despina Markopoulou, Peter Öhl, Cecilia Poletto, Luigi Rizzi, Heloisa Salles, Andy Simpson, Dimitra Theophanopoulou-Kontou, Tasos Tsangalidis, Ianthi Tsimpli and Nigel Vincent. All the errors are our own.

Various parts of the material presented here have been taught at the universities of Geneva, Maryland and Bangor, the 1998 LOT Winter School, Leiden, and the 2000 Girona International Summer School in Linguistics. We would like to thank the students at those institutions for their interest and their comments.

An earlier version of Chapter Two was published as 'The History of the Future', in D. Lightfoot (ed.), *Syntactic Effects of Morphological Change*, Oxford University Press, 2002, pp. 23–56.

Finally, a special thanks to Geoffrey Horrocks and Neil Smith for reading a draft of the book at the last minute, to Andrew Winnard at CUP for his patience, Kleantes Grohmann for compiling the index and Jacqueline French for copy-editing.
