## INDEX I

## ENNIUS' TRAGIC VOCABULARY

I refer with Arabic numerals to verses actually quoted as Ennian, with Roman numerals to passages from which Ennian words have been or could be extracted. My lists attempt to be inclusive rather than critical. Square brackets mark corruption, italic numerals conjecture, asterisks conjecture which I reject but consider to be specially interesting. I use the following abbreviations:

a.	accusative	n.	neuter
ab.	ablative	nom.	nominative
adj.	adjective	p.	plural
adv.	adverb	part.	participle
conj.	conjunction	perf.	perfect
d.	dative	pres.	present
f.	feminine	pp.	preposition
g.	genitive	s.	singular
imp.	imperative	sub.	substantive
ind.	indicative	subj.	subjunctive
indef.	indefinite	vb.	verb
interr.	interrogative	voc.	vocative
m.	masculine
