Contents

Preface vii
List of Contributors ix

1 Colloidal Particles at Liquid Interfaces: An Introduction 1
   B.P. Binks and T.S. Horozov

Section 1  Particles at Planar Liquid Interfaces

2 Structure and Formation of Particle Monolayers at Liquid Interfaces 77
   L. Bergström

3 Theory for Interactions between Particles in Monolayers 108

4 Particle-Assisted Wetting 152
   W.A. Goedel

Section 2  Particles at Curved Liquid Interfaces

5 Particle-Laden Interfaces: Rheology, Coalescence, Adhesion and Buckling 169
   G.G. Fuller, E.J. Stancik and S. Melle

6 Solids-Stabilized Emulsions: A Review 186
   R.J.G. Lopetinsky, J.H. Masliyah and Z. Xu

7 Novel Materials Derived from Particles Assembled on Liquid Surfaces 225
   K.P. Velikov and O.D. Velev
