PREFACE

The maps in the other volumes of *The Domesday Geography of England* rarely show place-names because of the limitation imposed by their scales. It is with this in mind that the present volume has been prepared. The Index includes both the Domesday place-names and their modern equivalents, and so indicates how the various Domesday place-names have been identified and allocated. The Maps show the distribution of Domesday vills against a background of relief and rivers. An Introductory Note explains the method of both Index and Maps.

Although designed for readers of the 'Domesday Geographies', it is hoped that the *Gazetteer* will also be of use to others who work in the field of English medieval history and geography.
