

## INDEX

- Averages over sets of lattices, 48–52
- Bibliography, 104–9
- Blichfeldt's inequality, 78–80
- Convex domains, coverings with, 16–17; packings of, 11–12
- Convex sets, coverings with, 16–20, 40–7; lattice coverings with, 16–20, 55–68; lattice packings of, 5–10, 48–54; packings of, 10–15, 33–6
- Covering, definition of, 16, 21
- Cylinders, approximation of convex sets by, 55–7; lattice packings of, 7
- Daniels's asymptotic formula, 85–90
- Delaunay simplices, 91–4
- Density, covering, 24; invariance of, 26–32; lattice covering, 25; lattice packing, 25; packing, 25; periodic covering, 25; periodic packing, 25
- Difference set, 9–10, 37–9
- Dual subdivision, 91–4
- Generalized limit, 49
- Lattice covering, definition of, 16, 24
- Lattice packing, definition of, 1, 25
- l.i.m., 49
- limit in mean, 49
- Minkowski–Hlawka theorem, 4, 8
- Packing, definition of, 10, 21
- Periodic covering, definition of, 25
- Periodic packing, definition of, 25
- Simplices, 69–73; Delaunay, 91–4
- Spheres, coverings with, 16–20, 91–103; lattice coverings with, 16–20, 66–8; lattice packings of, 2–5; packings of, 13, 36, 74–90
- Voronoi polyhedra, 74–80
