

INDEX

The numbers refer to the pages

- Absolute deviation, 7
 Addition of probabilities, 21–2, 35
 Additive property, of chi-square, 177;
 of cumulants, 41; of Gamma variates,
 151; of normal variates, 57–8, 61–3;
 of Poissonian variates, 49, 59
 Aitken, A. C., 42, 45, 58, 105, 125, 129,
 181, 205, 265, 267–9
 Analysis of variance, 209–26, 267–8,
 271; of co-variance, 226–35
 Anderson, R. L., 268
 Anscombe, F. J., 271
 Area under normal probability curve,
 56
 Arithmetic mean, 1; *see* Mean
 Array, 76, 87, 93–4, 180–1, 221–2
 Asterick for significance, 172, 217, 221
 At random, 21; *see* Random
 Attributes, sampling of, 109–16, 126
 Autocorrelated, 269
 Autoregressive, 268

 Barnard, G. A., 270–2
 Bartholomew, D. J., 272
 Bartlett, M. S., 183, 259–60, 265, 267,
 269–72
 Barton, D. E., 272
 Berkeley symposium, 270
 Bernoulli, J., 32–4
 Beta distributions and variates, 153–9
 Beta function, 147–9
 Binomial distribution, 28–9, 38, 45–7,
 110, 173
 Bivariate distributions, Chapters *iv*
 and *v*; b. populations, 138–43, 177–80,
 192–4, 200–5, 226–35
 Bliss, C. I., 270
 Bowley, A. L., 16, 58, 83, 141, 143, 264
 Bronowski, J., 269
 Brookner, R. J., 268
 Brown, G. W., 269
 Burgess, R. W., 265

 Camp, B. H., 16, 42, 58, 83, 105, 125,
 143, 252, 260, 266
 Cauchy's distribution, 159

 Change of origin, 4, 213, 229; of unit,
 4, 5, 9, 75–6
 Characteristic function, 37, 39
 Chernoff, H., 271–2
 Chi-square, Chapter *ix*; tests, 170–6;
 table, 171
 Chords of circle, 43–4
 Class, 10, 76, 130; class frequency, 10,
 130, 173–4; class interval, 10, 41, 130
 Cochran, W. G., 160, 216, 266, 270–1
 Coefficient; *see* Correlation etc.
 Coefficient of regression, 71; distribu-
 tion of, 179–80; significance of, 194
 Coefficient of variation, 7, 144
 Collateral reading; List at the end of
 each chapter
 Combination of estimates of r , 203–5
 Comparison of samples, 112–14, 122–3,
 190–2, 202–4
 Component distributions, 2, 8, 16
 Compound probability, 21–4, 35–6
 Conditional probability, 23
 Confidence intervals, 268, 271
 Confidence range and limits, 190
 Constraint, linear, 166–8, 175
 Contagious distribution, 272
 Continuous distributions, 12–16, 30–2,
 68–9, 74, 93–7, 120; c. variable, 3, 30–2
 Convergence in probability, 33
 Coolidge, J. L., 42, 58, 105, 129, 265
 Cornish, E. A., 41, 266
 Correlation coefficient, 71–83, 95–6,
 141–3; distribution of, 177–9; signi-
 ficance of, 193–4, 223–4; transforma-
 tion of, 200–3; partial correlation,
 242, 250–2, 256–7; multiple correla-
 tion, 242, 249–50, 257–9
 Correlation of means, 138–9
 Correlation of ranks, 79–80
 Correlation ratios, 89–95, 221–2; dis-
 tribution of, 180–1
 Correlation table, 76–7, 85
 Covariance, 27, 68–9, 81; of class fre-
 quencies, 132–3; of moments, 135,
 140–1; of means, 138; analysis of
 cov., 226–35
