

## INDEX

- additive set, 8  
 algebraically parallel, 35  
 augmented generator, 29  
 autoparallel, 24  
 autopolar, 22  
 bridging construction, 66  
 Bridging Theorem, 69  
   application in  $S_7$ , 76  
   application in  $S_{16}$ , 77  
  
 central reflection, 106  
 chordal space, 20  
 Clifford parallel, 21  
    $\alpha$ -parallel,  $\beta$ -parallel, 23  
   in elliptic space, 4, 7  
 Clifford quadric, 6  
 Clifford regulus, 23  
    $\alpha$ -regulus,  $\beta$ -regulus, 23, 122  
   canonical equation, 27  
   in elliptic three-space, 6  
 compatibility, 31  
 core variety, 94  
  
 directrix line, 12, 29  
 distance, non-Euclidean, 2  
 dual matrix, 63  
  
 Embedding Theorem, 36  
 equidistant curve, 3  
 equidistant surface, 4  
  
 fibrations of elliptic spaces, 5, 8, 80  
  
 generator (of regulus), 12  
 Grassmannian variety, 17  
  
 half-Grassmannian, 113  
 Hurwitz–Radon matrix equations,  
   52, 127  
   extended form, 37  
  
 irreducible system of Clifford parallels,  
   36  
 isoclinic spaces, 6, 8  
  
 kernel of Clifford regulus, 29  
  
 linear system of Clifford parallels, 36  
   affine part, 47  
   degenerate, 91  
   half-fixed, 52, 77  
   maximal, 52  
   non-singular, 48  
   self-collineations, 104  
   singular, 48  
   space-filling, 53  
   totally singular, 48  
  
 Matrix Cross-ratio Theorem, 14  
  
 natural correlation, 12  
 non-Euclidean geometry, 1, 3, 23  
 nuclear primal, 87  
 nuclear quadric, 89  
  
 perpendicular, 3, 4, 20  
 Petersen–Morley Theorem, 100  
  
 quadric in  $S_{2n-1}$ , standard equations  
   and properties, 11  
 quadric-generator, 29  
 quadric-solid, 14  
  
 regular system, 74  
 regulus, 12  
    $\Omega$ -regulus, 33  
  
 singular space, 47  
 skew reflection, 106  
 split regulus, 91  
 Study involution, 79  
 Study representation, 99  
 Study triality, 124  
  
 terminal generator, 23  
 terminal quadric, 29  
 $T$ -representation, 82 ff.  
   for  $S_3$  and  $S_5$ , 86, 98  
 trivially parallel, 21  
  
 Veronesean, 18  
  
 weight of a linear system, 48
