## Index

- Adán de Yarza, R., 28
- agricultural accounts, 1968–1969, *see* under individual accounts
- appropriation, 108; access to capital, labor, land, 120–1; in 1920, 140; in 1969, 140–1; *see also* means of access to factors of production
- baserriak*, 7
- Basque country, 2–3
- Basques: as culturally European, 3; economic acumen of, 18; uniqueness of, 2–3
- beef raising: levels of exploitation in, 66; marketing, 69–70; production costs, 66–8; techniques, 65–6
- Bidasoa R., 3
- Bohannon, P., 214
- capital, 29–30; census analysis (1969) of, 46–9; circulating, 30, 36; in 1920, 31–4; in 1969, 36–7
- Caro Baroja, J., 3, 7, 9, 152, 215
- caserío*, 7
- case studies, 161, 163; case 1, 163–71; case 2, 171–8; case 3, 178–85; case 4, 185–91; case 5, 192–7; case 6, 197–202; conclusions, 202–7; *see also* cattle accounts, cattle marketing, domestic group, garden accounts, gardening (marketing), means of access to factors of production, rental, rural depopulation
- cattle accounts: combining milk and beef accounts in, 83–4; summary of conclusions to, 81–93; *see also* case studies
- cattle marketing, 68–71; *see also* beef raising, case studies, dairying
- cattle raising, *see* beef raising, dairying
- census analysis, 1969: correlations with specialization and land tenure, 53–4; factor analysis, 55–7; of number of farms, 17; rural depopulation shown by, 17; of types of farming, 17; *see also* capital, labor land, rural depopulation
- Chayanov, A., 26
- circulating cost, 36
- Civil Code: inheritance under, 110–12; *see also* customary law
- collective nobility, 12, 153–4; *see also* decline in prestige of agriculture, dignity of work
- commercialization, 1, 14, 147, 208–9; early period of, 14, 147
- contraband, 15
- customary law: conflicts with Civil Code in, 112–13; inheritance under, 110, 112; internal sources of conflict in, 113; subversion of Civil Code by, 114–15
- dairying: calf production, 65; levels of exploitation, 61, 63; manure production, 65; marketing, 68–71; milk production levels, 65; production costs, 60–3; slaughter weights by level of exploitation, 65; techniques, 59–68
- Dalton, G., 214
- decline in prestige of agriculture: through aspiration effect, 152; changing concept of dignity of work, 153–7; demonstration effect, 152, 159; revolution of rising expectations, 152, 159
- dignity of work, 18; *see also*, collective nobility, decline in prestige of agriculture, recruitment crisis, rural depopulation
- domestic developmental cycle, *see* case studies
- domestic group, 9–10
- Dorfman, R., 162
- Douglass, W., 7, 9, 17, 109, 115, 130, 143, 150, 151
- Echegaray, B., 110, 119
- economic acumen of farmers, 208
- economic anthropology, 144, 208; formalists in, 19; operationalization in, 22; problems in studying Western cases, 19; substantivists in, 19
- economic development policy; no substitute for micro-analysis, 210–11
- economic man, 2, 105
- Eicher, C., 214

Index

- factor analysis, *see* census analysis, 1969
- factors of production: as employed in 1920, 33–5; as employed in 1969, 36–7; *see also* capital, labor, land
- family farming: commercial, 3; subsistence-oriented, 3
- farms: buildings, 7–8; sizes, 7–8; specializations in, 41, 56
- Firth, R., 21, 209
- fishing, 17
- formal accounts, 79, 99, 101–5; *see also* case studies, cattle accounts, garden accounts
- formal-aggregate analysis, 24; *see also* methods and definitions
- formal-domestic group analysis, 25; *see also* methods and definitions
- formalist-substantivist debate, 144; *see also* economic anthropology
- fruit trees, 5; causes for decline of, 15
- Fuenterrabia, 3–6; early commercialization of farming in, 13–14; early twentieth-century poverty in, 13; farm settlement pattern in, 7; founding of, 13; military importance of, 13; never purely an agrarian town, 17; 1920 as a depression in, 14; peasant agriculture in, 14; sieges, 6
- garden accounts 93; data inputs, 94–5; inclusion of land values, 93–4; by level, 94–8; *see also* case studies
- gardening: levels of exploitation in, 72–4, 98–9; marketing, 73–9; techniques, 71–4
- general account, 80–1; *see also* cattle accounts, garden accounts
- Godelier, M., 214
- Greenwood, D., 15, 21, 214
- Guipúzcoa, 3; representative government of, in the past, 12; tourism in, 15–16
- hand tools, 8; *see also* capital
- Hill, P., 58
- household, 9; *see also* domestic group
- industrialization, 2, 3, 17; as alternative source of employment, 16; effects on agriculture, 14–15; effect on land values, 16; *see also* commercialization
- inheritance, 10, 18, 108; as means of access to capital, labor, land, 110, 115–16; heir selection in, 10–11; in 1920, 123–4; in 1969, 124–5; *see also* Civil Code, customary law, means of access to factors of production
- Irún, 14
- labor: census analysis of, 1969, 49–53; division of, 30; in 1920, 34–5; in 1969, 37–8; live-in, 30; urban and agricultural compared, 37–8; wage, 30; *see also* means of access to factors of production
- Laffitte, V., 35
- land, 26–7; census analysis (1969) of, 42–5; climate, 29; in 1920, 31; in 1969, 36; soil types, 26–9; topography, 27–8; *see also* means of access to factors of production
- land tenure, *see* appropriation, purchase, rental
- Larramendi, P. M., 153
- LeClair, E., 22, 39
- loans, *see* capital, rental
- machinery, 8; *see also* capital
- market: market mechanism not reliable instrument of development policy in, 211–12; *see also* beef raising, dairying, gardening
- marriage: as means of access to capital, labor, land, 108–10; in 1920, 122; in 1969, 123; *see also* means of access to factors of production
- maximization model, 145; why limited to pecuniary matters, 19–20
- means of access to factors of production, 108; aims and advantages of this approach, 108; central assumption of analysis, 107–8; comparison of 1920 and 1969, 121–41; conclusions, 106–7, 141–4; *see also* appropriation, factors of production, inheritance, marriage, production, purchase, reciprocal arrangements, rental
- Mellor, J., 214
- methods and definitions: basic suppositions of analysis, 22; distribution of factors of production defined, 39; formal-aggregate analysis, 24; formal-domestic group analysis, 25; generalizable methods of analysis, 210; how 1920 and 1969 chosen, 13; models, 18, 22–3, 144–5, 209; plan of study, 20; quantification as a means to an end, 54; quantitative evidence, 2; simplifying assumptions, 1; social field analysis, 23;
