- Abelard, Peter, 90
 action, theory of, 27–8, 51
 analytical hypotheses, 22, 24, 28, 48, 50, 58
 Archimedes, 77, 81, 88
 Aristotle, 10, 34, 93
 Avogadro, A., 10, 62, 70, 108–12, 118, 122

 benefit of the doubt, principle of, 114–16
 Bohr, N., 2, 13, 70, 93, 104, 105, 113, 117
 Boorse, C., 61n
 Brahe, Tycho, 2

 Cajori, F., 73
 causal account of reference, 14, 15, 65–6, 86–91, 106, 127
 causal condition for determining reference: of a natural kind predicate, 65–6, 68, 93, 105–6, 110, 112, 122; of a proper name, 90, 105
 charity, principle of, 24, 27, 52–6, 58, 62, 105, 110, 113–14, 117
 Churchland, P. M., 73
 cluster theory of reference, 14, 17, Ch4, 116, 127, 128
 Convention T, 55, 56, 60; T-sentences, 55–7, 59, 60, 61, 63, 74, 78, 105, 114; *see also* truth
 Copernicus, N., 10
 correspondence theory of truth, 1, 2, 21
 crucial experiments, 6–7

 Dalton, J., 2, 10, 61–70, 93, 106–12, 114, 118, 122, 126, 128
 Davidson, D., 27, 29, 52–70, 83, 93, 110, 126
 descriptive theory of reference, 3, 76–7, 126–7

 Dewey, J., 68
 division of linguistic labour, principle of, 75, 98
 Dummett, M., 28, 72, 75, 81, 87–8, 92, 94, 96–7, 101

 Earman, J., 123–4
 Einstein, Albert, 6, 121, 122
 Erigena, 89
 essentialism, 72, 84–5, 100–2
 Evans, G., 27–33, 39, 43, 44, 87–9
 extension of a predicate, 9–16, 46, 54, Ch. 4, 104–28

 falsificationist explanation of scientific progress, 2, 4, 6–7, 125
 Feyerabend, P., 5–8, 61, 119, 124
 Field, H., 21, 78–9, 116, 122–4
 Fine, K., 92
 Føllesdal, D., 68
 four questions for realism, *see* realism, four questions for
 Franklin, B., 66, 68
 Frege, G., 8, 9, 16, 25, 46, 74, 76, 84, 92
 Friedman, M., 123

 Galileo, 4, 5
 Gassendi, P., 117, 127
gavagai, 21–44, 48–9
 Gay-Lussac, J., 62, 107–8
 Gilbert and Sullivan, 79
 Goodman, N., 43
 Grandy, R., 28, 52

 Hacking, I., 62
 Harman, G., 25
 Hill, C., 38–40
 Hookway, C., 51, 52
 humanity, principle of, 28
 Huyghens, C., 6

[More information](#)

- identity, in translation, 22–3, 33, 39–42, 59
- incommensurability, 7, 8, 11, 12, 21, 119, 125
- indeterminacy of translation of sentences, 16–18, 27–8, Ch. 3, 70, 106, 110, 124, 126, 129; relation to inscrutability of reference of terms, 18–21, 69, 124, 126
- indexical predicates, 99–102
- inscrutability of reference of terms, 16–17, Ch. 2, 58–9, 62, 67, 106, 110, 124, 126, 129; relation to indeterminacy of translation of sentences, 18–21, 69, 124, 126
- interpretation, theory of, 17, 27, Ch. 3, 70, 104, 109–10, 126; prerequisite for theory of reference, 70, 78, 109–10, 126; *see also* radical interpretation
- Jardine, N., 113–17
- Johannsen, W., 104
- John the Scot, 89
- Kepler, J., 2, 4
- Kripke, S., 54., 65, 72, 80–91, 95–8, 100–3, 127
- Kuhn, T., 7, 117n
- Lavoisier, A., 118
- law-cluster terms, 120–2, 128
- Lewis, D., 27, 28, 52
- linguistic community, 12, 14, 46–7, 52, 55–6, 73–4, 94, 99, 115
- logical derivability, condition of, 5, 119
- Lombard, Peter, 90
- McGinn, C., 53–4, 83
- mass, 5–6, 8, 78–9, 119–24, 128
- mathematical structure, as a criterion in interpretation, 123–4, 128
- Maxwell, J. C., 93
- meaning, 7–9, 13, 47, 48, 51–2, 61, 63, 67–9, 80, 105, 110, 119, 125; invariance, condition of, 5, 119–20; of a predicate, 94, 98–103; of a proper name, 74–90; theory of, 29–33; *see also* sense
- mechanics: Galilean, 4, 5; Newtonian, 4–6, 78–9, 119–24; special relativity, 5–6, 78–9, 119–24
- Mendel, G., 10, 65, 68, 114, 121
- Mendeleyev, D., 93
- Michelson and Morley, 6
- Muller, H., 13, 70, 93, 113, 121
- Nagel, E., 5, 119
- natural kind predicates, 10–11, 19, 46, 54, 66, Ch. 4, 120
- network model of theories/language, 60–1; *see also* observational sentences
- Newton, I., 2, 4, 5, 78–9, 107, 114, 121–4, 127–8
- observational, relation to theoretical, 6, 61, 62, 64, 110
- observational sentences, 49, 57, 59, 60–4, 67, 105, 110; *see also* theoretical sentences
- observational terms, 6, 47, 61, 71; *see also* theoretical terms
- ontological relativity, 21, 57, 58
- partial denotation, 21, 78–9, 116
- phlogiston, 13, 14, 71, 112–18, 127–8
- physical magnitude terms, 65–6, 72–3
- Popper, K., 6
- positivist explanation of scientific progress, 2, 4–7, 119, 125
- possible worlds, 85–6
- predication, problem of, 1, 21
- proper names, theory of reference for, 74–91
- Ptolemy, 10, 13, 93, 113, 121, 122
- Putnam, H., 13, 14, 65–66, 68, 71–2, 75, 81, 94–5, 98–103, 120–1, 127, 128
- quantification: recognition of, in translation, 38–9; referential, 38–9; substitutional, 38–9, 58
- Quine, W. V., 16, 17, Ch. 2, Ch. 3, 70, 110, 126–7
- radical interpretation, 51–69, 126–7; *see also* interpretation, theory of; radical translation
- radical translation, 21–4, 46–58, 62, 126–7; *see also* indeterminacy of translation of sentences; radical interpretation
- realism, four questions for, 10–17, Conclusion; question (1), 11–12, 15, 17, Ch. 5, 125; question (2), 12–17, 80, 90, 92–3, 104–6, 109,

- Conclusion; question (3), 14–17, 46, 70–103, 109, 116, Conclusion; question (4), 16–17, 18–45, Conclusion
- realist explanation of scientific progress, 2, 7–17, 70, 118, 119, 125, 128; contingent truth of, 3, 70–1, 106, 112, 117, 128–9
- reference, 3, 9, 16, 46, 74; problem of, 1, 21; theory of, dependent of a theory of interpretation, 70, 78, 109–110, 126; theory of, necessary for explanation of scientific progress, 3, 8n, 117–18, 125; *see also* causal account of reference; causal condition for determining reference; inscrutability of reference of terms; proper names, theory of reference for
- relativism, 2, 7, 125
- rigid designators, 100
- Rorty, R., 117–18
- Rutherford, E., 70
- Scheffler, I., 8n
- scientific progress, problem of 1, 1–2, 125; falsificationist explanation of, 2, 4, 6–7, 125; positivist explanation of, 2, 4–7, 119, 125; realist explanation of, 2, 7–17, 70, 118, 119, 125, 128
- Searle, J., 77
- sense, 9, 13–14, 46, 94; as distinct from meaning, 9, 94–5; of a name, 74–6, 79–81, 83–5; of a predicate, 13–14, 16, 94; *see also* meaning
- Shapere, D., 8
- singular terms, 9; translation of, 34–8, 43, 44
- Stoney, G. J., 73, 102, 104
- Strawson, P. F., 36, 77
- Swinburne, R. G., 92
- Tarski, A., 11, 52, 55, 58
- Taylor, I., 87
- theoretical, relation to observational, 6, 61, 62, 64, 110;
- theoretical sentences, 57, 60, 67; *see also* observational sentences
- theoretical terms, 6, 47, 61, 71; *see also* observational terms
- translation, between theories, 8, 16, 106; *see also* indeterminacy of translation of sentences; radical translation
- truth: correspondence theory of, 1, 2, 21; Tarski's definition of, 52, 55–6, 58; theory of, 53, 55, 56, 58, 60, 61, 63, 69, 78, 110; *see also* Convention T.
- truth-value gaps, 36
- underdetermination of theory by evidence, 18, 47–51, 59–60, 64, 67–9, 117, 124, 127
- vague predicates, 91–2
- Wilson, N. L., 27
- Wittgenstein, L., 76–7
- Wright, C., 92
- Young, T., 6
- Zadeh, L. A., 92
- Zemach, E., 72, 99, 101
