I – BIODIVERSITY AND EVOLUTION

Introduction 1

- 1 **Antarctic marine biodiversity: an overview** 3
W. E. Arntz, J. Gutt, and M. Klages
- 2 **Diversity of lichens in Antarctica** 15
M. Castello and P. L. Nimis
- 3 **Two polar *Hydractinia* species (Cnidaria), epibiotic on two closely related brittle stars (Echinodermata): an example for a taxonomic and ecological bipolarity** 22
A. Svoboda, S. Stepanjants and I. Smirnov
- 4 **On the demersal fish fauna of the Lazarev Sea (Antarctica): composition and community structure** 26
C. Zimmermann
- 5 **Genetic variation in populations of the moss *Bryum argenteum* in East Antarctica** 33
K. D. Adam, P. M. Selkirk, M. B. Connett and S. M. Walsh
- 6 **Genetic and ecological research on anisakid endoparasites of fish and marine mammals in the Antarctic and Arctic-Boreal regions** 39
L. Bullini, P. Arduino, R. Cianchi, G. Nascetti, S. D'Amelio, S. Mattiucci, L. Paggi, P. Orecchia, J. Plötz, B. Berland, J.W. Smith and J. Bratney
- 7 **Molecular phylogeny and evolution of Notothenioid fish based on partial sequences of 12S and 16S ribosomal RNA mitochondrial genes** 45
L. Bargelloni, T. Patarnello, P. A. Ritchie, B. Battaglia and A. Meyer
- 8 **Prokaryotic Antarctic biodiversity** 51
P. D. Franzmann, S. J. Dobson, P. D. Nichols and T. A. McMeekin

- 9 **Expression of the myoglobin gene in Antarctic channichthyid fishes** 57
M. E. Vayda, D. J. Small and B. D. Sidell

II – COMMUNITY STRUCTURE AND FUNCTION

Introduction 63

- 10 **Temporal dynamics of coastal Antarctic phytoplankton: environmental driving forces and impact of a 1991/92 summer diatom bloom on the nutrient regimes** 67
M. A. Moline, B.B. Prézelin, O. Schofield and R. C. Smith
- 11 **Distribution of phytoplankton organic carbon in the vicinity of Elephant Island, Antarctica, during the summers of 1990–1993** 73
V. E. Villafañe, E. W. Helbling and O. Holm-Hansen
- 12 **Identification of dominant taxa in coastal Antarctic water and ice core samples using lipid signatures** 79
J. H. Skerratt, P. D. Nichols, T. A. McMeekin and H. R. Burton
- 13 **Temporal variability of bacteria, phytoplankton and zooplankton assemblages of the sub-Antarctic Morbihan Bay (Kerguelen Archipelago)** 86
S. Razouls, F. de Bovée, D. Delille, M. Fiala and P. Mayzaud
- 14 **Studies on dimethyl sulphide in Antarctic coastal waters** 93
G. R. DiTullio and W. O. Smith, Jr
- 15 **Distributions and dynamics of microbial communities in the pack ice of the western Weddell Sea, Antarctica** 101
C. H. Fritsen and C.W. Sullivan
- 16 **Abundance and distribution of larval krill, *Euphausia superba*, associated with annual sea ice in winter** 107
T. K. Frazer, L. B. Quetin and R. M. Ross
- 17 **Reproduction of *Calanus propinquus* and *Metridia gerlachei* in spring and summer in the Weddell Sea, Antarctica** 112
F. Kurbjeweit

- 18 Trophic flows in the benthic shelf community of the eastern Weddell Sea, Antarctica 118**
A. Jarre-Teichmann, T. Brey, U. V. Bathmann, C. Dahm, G. S. Dieckmann, M. Gorny, M. Klages, F. Pagés, J. Plötz, S. B. Schnack-Schiel, M. Stiller and W. E. Arntz
- 19 Factors governing phytoplankton and particulate matter variation in Potter Cove, King George Island, Antarctica 135**
I. Schloss, H. Klöser, G. Ferreyra, A. Curtosi, G. Mercuri and E. Pinola
- 20 Feeding ecology of the Antarctic lamellibranch *Laternula elliptica* (Laternulidae) in Marian Cove and vicinity, King George Island, during one austral summer 142**
I.-Y. Ahn
- 21 Sub-Antarctic weevil assemblages: species, structure and survival 152**
S. L. Chown
- 22 Microbial communities in soils and on plants from King George Island (Arctowski Station, Maritime Antarctica) 162**
M. Bölter
- 23 Environment and microbial communities in a tidal lagoon at Bratina Island, McMurdo Ice Shelf, Antarctica 170**
I. Hawes, C. Howard-Williams, A.-M. J. Schwarz and M. T. Downes
- 24 Seasonal distribution of picocyanobacteria in Ace Lake, a marine-derived Antarctic lake 178**
L. M. Rankin, P. D. Franzmann, T. A. McMeekin and H. R. Burton
- III – SURVIVAL MECHANISMS**
- Introduction 185**
- 25 Spawning success and grazing impact of *Euphausia crystallorophias* in the Antarctic shelf region 187**
E. A. Pakhomov and R. Perissinotto
- 26 Dietary-related mechanisms of survival in *Euphausia superba*: biochemical changes during long-term starvation and bacteria as a possible source of nutrition 193**
P. Virtue, P.D. Nichols and S. Nicol
- 27 The role of antifreeze proteins in survival of Antarctic fishes in freezing environments 202**
A.L. DeVries
- 28 Freezing resistance in Antarctic fish 209**
A. P. A. Wöhrmann
- 29 An ontogenetic shift in the use of visual and non-visual senses in Antarctic notothenioid fishes 217**
J. C. Montgomery
- 30 Hydration-related spatial and temporal variation of photosynthetic activity in Antarctic lichens 221**
B. Schroeter, F. Schulz and L. Kappen
- 31 Physiological adaptations to freezing and UV radiation exposure in *Prasiola crispa*, an Antarctic terrestrial alga 226**
A. E. Jackson and R. D. Seppelt
- 32 The delicate stability of lichen symbiosis: comparative studies on the photosynthesis of the lichen *Mastodia tesselata* and its free-living phycobiont, the alga *Prasiola crispa* 234**
A. H. L. Huiskes, N. J. M. Gremmen and J. W. Francke
- 33 Crabeater seal cohort variation: demographic signal or statistical noise? 241**
P.L. Boveng and J.L. Bengtson
- IV – ADAPTIVE MECHANISMS**
- Introduction 249**
- 34 Physiological and biochemical adaptations in fish to a cold marine environment 251**
G. di Prisco
- 35 Enzymes in cold-adapted Antarctic fish: glucose-6-phosphate dehydrogenase 261**
M. A. Ciardiello, L. Camardella and G. di Prisco
- 36 Cn–Zn superoxide dismutase from *Pagothenia bernacchii*: catalytic and molecular properties 266**
A. Cassini, M. Favero, P. Polverino de Laureto and V. Albergoni
- 37 Structure and antibody specificity of immunoglobulins from plasma of Antarctic fishes 272**
M. R. Coscia and U. Oreste
- 38 Seasonality of feeding and lipid content in juvenile *Pleurogramma antarcticum* (Pisces: Nototheniidae) in the southern Weddell Sea 277**
G. Hubold and W. Hagen
- 39 Spatial and life-cycle changes in lipid and fatty acid structure of the Antarctic euphausiid *Euphausia superba* 284**
P. Mayzaud
- 40 Temperature adaptation and regulations of citrate synthase in the Antarctic krill compared with other crustaceans from different climatic zones 295**
R.-A. H. Vetter, R. Saborowski, G. Peters and F. Buchholz
- 41 The β -tubulin gene family of the Antarctic ciliate *Euplotes focardii*: determination of the complete sequence of the β -T1 gene 300**
C. Miceli, S. Pucciarelli, P. Ballarini, A. Valbonesi and P. Luporini

- 42 Purification and characterization of atypical zinc-binding polypeptides from the Antarctic sea urchin *Sterechinus neumayeri* 305**
C. Capasso, R. Scudiero, A. Capasso, R. D'Avino, L. Camardella, G. di Prisco and E. Parisi
- 43 An overview of the population biology and chemical ecology of three species of Antarctic soft corals 309**
M. Slattery and J. B. McClintock
- 44 Ecophysiological strategies of terrestrial arthropods in the maritime Antarctic 316**
W. Block
- 45 Comparative studies of Antarctic arthropod and bryophyte life cycles: do they have a common strategy? 321**
P. Convey
- 46 Developmental changes and diurnal and seasonal influences on diving behaviour of Weddell seal (*Leptonychotes weddellii*) pups 328**
J. M. Burns and J. W. Testa
- 47 Significant differences in weaning mass of southern elephant seals from five sub-Antarctic islands in relation to population declines 335**
H. R. Burton, T. Arnborn, I. L. Boyd, M. Bester, D. Vergani and I. Wilkinson
- V – HUMAN IMPACT AND ENVIRONMENTAL CHANGE**
- Introduction 339**
- 48 Climatic change and the recent climatic record 343**
W. Karlén
- 49 Ecological variability in Antarctic coastal environments: past and present 349**
P. A. Berkman
- 50 Climate change in Kerguelen Islands and colonization of recently deglaciated areas by *Poa kerguelensis* and *P. annua* 358**
Y. Frenot, J.-C. Gloaguen and P. Tréhen
- 51 Impacts of ozone depletion on Antarctic organisms 367**
H. J. Marchant
- 52 Effects of solar ultraviolet radiation on primary production in Antarctic waters 375**
O. Holm-Hansen, V. E. Villafañe and E. W. Helbling
- 53 Preliminary sediment core evidence against short-term UV-B induced changes in Antarctic coastal diatom communities 381**
A. McMinn, H. Heijnis and D. Hodgson
- 54 Microbial niches in the polar environment and the escape from UV radiation in non-marine habitats 388**
W. F. Vincent and A. Quesada
- 55 Human impact on an oligotrophic lake in the Larsemann Hills 396**
J. C. Ellis-Evans, J. Laybourn-Parry, P. R. Bayliss and S. T. Perriss
- 56 Investigation of mixed function oxidase activity in Antarctic organisms 405**
S. Focardi, M. C. Fossi, L. Lari, S. Casini and R. Bargagli
- 57 Heavy metals in Antarctic molluscs 409**
M. Nigro, F. Regoli, R. Rocchi and E. Orlando
- 58 Preengland oil and blood samples: non-destructive methods for monitoring organochlorine levels in Antarctic top predators 413**
N. W. van den Brink
- 59 Changes in the vegetation of sub-Antarctic Marion Island resulting from introduced vascular plants 417**
N. J. M. Gremmen
- 60 Potential effects of two alien insects on a sub-Antarctic wingless fly in the Kerguelen islands 424**
M. Chevrier, P. Vernon and Y. Frenot
- 61 Impact of an increasing fur seal population on Antarctic plant communities: resilience and recovery 432**
R. I. L. Smith
- 62 The *Bahia Paraiso*: a case study in environmental impact, remediation and monitoring 437**
P.A. Penhale, J. Coosen and E. R. Marschoff
- 63 Human disturbance and long-term changes in Adélie penguin populations: a natural experiment at Palmer Station, Antarctic Peninsula 445**
W. R. Fraser and D. L. Patterson
- VI – POSTSCRIPT**
- Future opportunities 453**
- Index 455**
