978-0-521-11220-8 - Dynamic Properties of Forest Ecosystems
Edited by D. E. Reichle
Table of Contents
More information

Contents

		pages
	List of Contributors and Collaborators	xv
	Preface *J. B. Cragg*	xxi
	Foreword *D. E. Reichle*	xxv
1	Physiognomy and phycosociology of the international woodlands research sites *R. L. Burgess*	1
2	Growth, aging and succession *O. L. Loucks, A. R. Ek, W. C. Johnson & R. A. Monserud*	37
3	Radiation, heat, water and carbon dioxide balances *A. Galoux, P. Benecke, G. Gietl, H. Hager, C. Kayser, O. Kiese, K. R. Knoerr, C. E. Murphy, G. Schnock & T. R. Sinclair*	87
4	Water relations and hydrologic cycles *R. H. Waring, J. J. Rogers & W. T. Swank*	205
5	Soil processes *B. Ulrich, P. Benecke, W. F. Harris, P. K. Khanna & R. Mayer*	265
6	Elemental cycling in forest ecosystems *D. W. Cole & M. Rapp*	341
7	Comparative productivity and biomass relations of forest ecosystems *R. V. O'Neill & D. L. De Angelis*	411
8	Analysis of biomass allocation in forest ecosystems of IBP *R. H. Gardner & J. B. Mankin*	451
9	Carbon metabolism in terrestrial ecosystems *N. T. Edwards, H. H. Shugart, Jr., S. B. McLaughlin, W. F. Harris & D. E. Reichle*	499
10	Analysis of forest growth and water balance using complex ecosystems models *P. Sollins, R. A. Goldstein, J. B. Mankin, C. E. Murphy & G. L. Swartzman*	537
11	Productivity of forest ecosystems studied during IBP: the woodlands data set *D. L. DeAngelis, R. H. Gardner & H. H. Shugart, Jr.*	567
	Index	673
