- Caldicot Level 128
- Calluna vulgaris* 25
- Chenopodiaceae 25
- Cladium mariscus* 25
- Coleoptera 91
- coastal defences 115–120
- competition 68–70
- Crouch Estuary 3, 43
- Dee Estuary 3, 90, 104, 106–107
- Dengie Peninsula 3, 14, 15, 44, 55–57, 98, 109
- dieback (of *Spartina*) 74
- Diptera 91
- Downholland Moss 23–25
- drainage system development 53–60, 128, 133, 160–161
- ducks 92
- Elymus pycnanthus* 74
- Enteromorpha* 169
- Ericaceae 25
- erosion of marshes 11–12, 115
- Fenland 23, 32
- Festuca rubra* 52, 55, 69, 86, 98, 102
- Foulness 3
- Frankenia laevis* 89
- Furzey Island 73–75
- geese 92
- geoid changes 6, 34
- grazing 90, 92, 97–98, 100, 102
- Gwent Levels 81, 98
- Halimione portulacoides* 73, 75, 89, 100, 169
- Hamford Water 3, 43
- Hudson Bay 65
- Humber Estuary 3, 50
- hydrodynamics 162–165
- Inula crithmoides* 90
- invertebrate fauna 90
- Iris pseudacorus* 90
- Juncus gerardii* 74, 86, 170
- Juncus maritimus* 90, 170
- Langstone Harbour 3, 89
- lapwing 92
- Limonium binervosum* 90
- Limonium vulgare* 74, 100, 169
- limus* 24, 25, 29
- loch-head marshes 3, 85–86
- management of saltmarshes 100–103
- mangroves 1
- marsh cliff retreat 4, 49–51
- Medway Estuary 3, 109
- Mersey Estuary 3
- minerogenic sediments 4, 123, 138–140
- molochite plugs 74
- mud mounds 11, 13, 51
- National Nature Reserves 96–97
- National Rivers Authority 98, 120
- National Vegetation Classification 86–87, 94
- niche 63–68
- niche overlap hypothesis 66
- Northwick Formation 132, 136
- Nymphaea* 25
- Oldbury Surface 128, 130
- organogenic sediments 4, 123, 138–142
- oystercatcher 92
- Pagham Harbour 3
- Pediastrum* 24
- Phragmites communis* 24, 25, 86, 89, 92, 170
- Pilling Marsh 22
- Plantago maritima* 74

SALTMARSHES

- Poole Harbour 74–76, 89
 Portsmouth Harbour 3
 productivity 92
Puccinellia maritima 67, 68–9, 73, 86, 92, 98, 102, 170
- RAMSAR Convention 96
 reclamation 128–132, 156
 redshank 92
restinga 26
 Ribble Estuary 3, 82–83, 90
 Rio de Janeiro State 16
 roddons 23
 Ruel Estuary 90
 Rumney Formation 127, 135
- Salicornia* spp. 73, 86, 89, 169
 salt pans 160
 Scolt Head Island 158, 164, 167
 Severn Estuary 123–137
 sea banks 81, 98, 121
 sea-level rise 6–11, 19–35, 60–61, 125–6, 155–156
 sediment lamination 137
 sediment sources 4, 125, 152–3
 shingle barriers 3, 158–159
 site protection 93–97, 115
 Sites of Special Scientific Interest 83, 93–5, 115, 148
 Solway Firth 3, 97
 Somerset Levels 132
 Southwest Lancashire 23–25
 Southampton Water 84
- Spartina alterniflora* 88
Spartina anglica 66–67, 74–75, 86, 89, 99, 103, 169
Spartina maritima 88
Spartina townsendii 88
 storm surges 22, 34, 98, 171–172
 stratigraphic roll-over 127
 succession 70–76
Suaeda fruticosa 89
Suaeda maritima 86, 89, 169
- Tay Estuary 3
 Tees Estuary 11, 84, 105
 Thames Estuary 3
 The Wash 81, 84, 89, 108, 151
 tidal range 5, 125, 151
 tide gauge records 8, 20–21
 Tollesbury marshes 59, 61
Triglochin maritima 74, 170
 turf cutting 97
turfa 27, 29
Typha angustifolia 25
- Vaucheria* 169
 vegetation communities 86–90
- waves 6, 43–47, 63
 Wentlooge Formation 127–128, 129, 135, 141
 wildfowling 80
 wind/wave climate influences 6, 43–47, 136
- zonation 63–64, 169
Zostera 105, 135, 169
